# Chapter 30 - To Use The Uselessness Of Futility

Side : Herge . Rau . Roshuru

On the other side of the screen, Lulu-sama who was following the slime got hit by an arrow.

And Yuki-san made a crappy signboard...1) Seele: She is referring to the signpost Yuki made when he fought the army  
(Herge)「Lulu-sama!?.Yuki-san why did you write that?!. Because of you, Lulu became injured!!」

I raised my voice to criticize the foolish thing done by Yuki-san.  
By the way, they reached the place where the Royal Guards of Roshuru had to play the game 【From here on please enter only with six persons】.

(Yuki)「...Haa.」

Yuki-san sighed at my reaction.

(Herge)「Why aren't you doing anything!?. Rather than that, why don't you rescue her!!」

That is what I, complained about it.

(Labiris)「... Herge really, you never consider anything.The meaningless thing Yuki seems to be doing is in fact useful.」

From my side, I heard the sound of a cute voice.  
It was Labiris who said that. She was currently acting as Philia's and Aslin's onee-san because this matter was probably too boring for those two.

(Lutz)「Indeed, Herge-sama is an honest Lady～. It probably was an easy thing to do. Well, the one over there should be your follower, I think?」

Oriel when sawing my helpless face stepped forward and asked Yuki-san in my stead.

(Oriel)「Was it with the purpose to know Lulu's true intentions that you let her

become wounded?」

(Herge)「What!？」

When she said these words, Oriel's anger toward Yuki-san increased even more.

Why would he do that?.

(Yuki)「No, these are two different things. Well, because Herge seems unable to understand, I will explain shortly.」

Yuki-San stared at my place.

I felt tremendous pressure but I didn't shrink and remained straight. Because what I said wasn't wrong.

(Yuki)「Herge, the only reason you should become angry is because of that signboard.」

(Herge)「What do you mean!! . Why should I get angry about that!!」

(Yuki)「It wasn't my objective to say something like don't aim for my friend. The main objective of that signboard is to confuse the enemies. Herge, now do you see how dull is your judgment?. Instead of trying to find a reason to get angry at me. Why don't you head toward Lulu and help her?」

(Herge)「Huh ! ?」

I couldn't refute what Yuki-san said.

I should go and rescue Lulu instead of questioning Yuki-san.

We shouldn't argue here.

Immediately, I halted the conversation. I was ready to jump out but Oriel stopped me.

(Oriel)「Please calm down, otherwise you'll get in the way of Yuki!!」

Oriel raised an unusual and severe voice to ask me to stop.

(Lutz)「...Onii-san. Herge is too straightforward isn't she?. Mou, why don't you simply tell us already.」

(Herge)「Why, I was only going out to help?」

Saying that, I shrugged my shoulders.

In the meantime, Lulu was advancing with serious steps inside the Dungeon. We could see blood flowing out of her back.

(Herge)「We can't spare time talking!! Her pursuers are already inside the Dungeon!!」

There was still quite the distance before Lulu could reach this deep. A painful to see blood mark was left at the entrance of the Dungeon.

(Knight A)「What's with that sign?」

(Knight B)「Something like this is at the level of the second Princess Seraria!!」

(Knight C)「Lulu escaped inside but look, it's a mark of blood. She's injured, it will be easy to catch her up.」

(Knight B)「What should we do?. How many people should we leave outside the Dungeon?」

(Knight A)「According to Seraria, the monsters and traps inside this Dungeon have stopped. However, no one had draw a map yet.」

(Knight C)「Even if Lulu is bleeding, it will be troublesome to follow her inside this maze.」

We could hear their conversation.

(Herge)「Hu-...hurry we need to save Lulu-sama!!」

(Labiris)「...You're really stupid huh?. The enemies' actions are fully readable now. Thanks to the injury received by Lulu...」

As Labiris said that. She was looking at the screen.

(Knight A)「We should kill her quickly before she goes to far. Outside two guards should be enough. You and you stay. The rest of us, will charge towards Lulu at full speed!!」

(Knight Mob)「Yes ! !」

Like that, the person who seemed to be the captain took the lead and they charged inside the Dungeon.

(Lutz)「Herge-Sama, is as see～. Onii-san succeded with Lulu's injury, now most of the enemy force is entering the Dungeon. I don't think the signboard

had any deeper meaning than what it says. But isn't it a good way to completely lead them wherever we want them to go~. With that, we were able to see the opponents foolish actions and behavior and now, were able to find the best strategy against them. This time the sign was used to provoke the other party reaction. Well~, the only one who would put a stupid sign like that at the entrance of his own Dungeon is Onii-san only~」

The female of the same tribe as Oriel said that.

(Labiris)「... Therefore Yuki, since they already barged inside the Dungeon. How do you plan to deal with them?」

(Yuki)「Who knows how I will do it. Honestly, that will be difficult. And I will say it now. By playing as you said Herge, I will be able to gather more information. You said that it was a waste but it's only your own judgement. When one thinks of a method that isn't wasteful, it's better than a method that is wasteful.」

Even though you did that to capture the opponent.  
To injure Lulu-sama was wrong...

(Yuki)「... It's bad. If we help Lulu then this Dungeon will have problems with the ones who want her dead, the ones from Ritea. To be frank, I don't care if Lulu dies here. Then, she would disappear and so would our worries about Ritea. If Lulu dies here, we would have plenty of ways to negotiate from that. If we do that or if we help her. Actually I don't care whether we choose one way or another.」

How could you spit those heartless words?  
That you don't care if Lulu-sama dies!?

(Herge)「How can you...!!」

(Millie)「Be silent!!. You useless Holy Woman!!. Since the beginning, the only thing you have been doing is complain!!. You insulted Yuki-san... The person that has taken good care of us!!. You got lost within your feelings without even thinking!!. You are so selfish!!」

Throught the room, the yell of the person whom I took away her happiness echoed, Millie's angry voice...

(Lutz)「... Honestly~, I can't bear to hear you~.Herge-sama, you may be an important woman Or was it a Holy Woman?. However, even if Onii-san doesn't respond to your verbal abuses, did you think that we would do the same?」 2) Seele: 1st Mistress to the rescue!

(Labiris)「... That's right. Besides, Yuki didn't intend to leave Lulu-sama since the beginning. Weren't 5 arrows fired?. Why would only 2 of them hit?.It's strange but I think that the speed of the arrows decreased a bit. I can just think of it as Yuki's doing.」 3) Seele: Legal wife to the rescue!

The two people stared at me with eyes filled with contempt.  
Like before, Oriel who wanted to protect me appeared before me...

(Oriel)「The three of you, your anger is justified. However, Lulu is like an older sister for Herge-sama and Seraria-sama. Can you take that in consideration this time?」

She bowed deeply.

(Lutz)「...Haa~. Now I know your circumstances. However, please think a little more before you start talking. Honestly, if we had to choose between Lulu-sama and Onii-san, we will obviously not betray him.」

(Labiris)「... You only use Yuki to vent your anger.」

(Millie)「...Initially, it's the fault of the Holy Woman if Lulu-sama is chased.」

Millie-san's words made sense. They struck my head.  
...That's it. Now that the Holy Woman Lulu-sama got expelled from her country, and the fact that I called myself a Holy Woman, she probably went through quite a bit of hardships. Thinking about that, something started to swell inside my stomach.

(Herge)「...Gueh」 4) Seele:...Really Author-sama, this is your favorite character?

I spat on the floor, drenching the tatami.

(Yuki)「Well~, Lulu is already here. If you can't afford to heal her with your magic, I can call a goblin to do that in your stead. Herge, what do you want to do?. Keep spewing your remains and leave the healing to me?. Or cure Lulu by

yourself?」

When I raised my face, I saw that the pale Lulu was watching me.

(Lulu)「...Herge-sama.... It's not your fault.... Ritea, I couldn't manage...I only wanted to stop them... So it was natural」

(Herge)「Lulu-sama!!」

(Lulu)「...!? Herge-Sama... I know what you are trying to do... It was my mistake... So...」

Lulu's face distorted when she said that.

(Yuki)「I will count up to five, in that time you have to heal her. You heard me so do it now.」

(Herge)「Huh!!. Even if Yuki-san isn't the one who tells me that... I will do it!!. Lily-sama, I will rely on your healing recovery!!. Extra heal!!」

Immediately, the arrows got removed. It was the highest recovery magic I could do.

Colors started to return in Lulu-sama's face.

(Lulu)「...Herge-sama. Thank you very much. I can even lift my arm now. I am proud of you. So please, stop making a face like that. Never doubt yourself. You are the one who saved my life right now Herge-sama.」

I felt like the one who was saved, was me. The words of Lulu-sama made tears overflow from my eyes.

Aslin and Philia were happy when they heard her voice of gratitude.

(Yuki)「Well, this scene wasn't bad. Can you tell us about your pursuers?」

(Lulu)「How is it going!?. Are they still chasing me!?.」

In order to understand, Lulu-sama was staring at Yuki-san's face.

(Yuki)「The 10 people who invaded fell inside a pitfall, Good bye. The two people at the entrance were successfully dealt with. Slime 02 and 03 made a diversion and slime 04 and 05 made a surprise attack like Mauve and the others suggested. By preventing them from breathing, they were captured. Now, the enemy's remaining forces amount to 0. While staying vigilant, the slimes are

transporting the captured soldiers.」

(Laburis)「... Was it thanks to the traps Yuki and I thought of?」

(Yuki)「They weren't able to go that far. Unfortunately, we will have to wait for another time.」

(Labiris)「...That's too bad.」

The head of Labiris was stroked by Yuki-San.  
In the end, everything ended with the best results.

(Mauve)「Th that?They had a hard time.」

(Yuki)「Well yeah, slimes shouldn't be able to work together like that normally. Also, to have a part of them rush directly towards their heads...」

(Mauve)「Although they were careless, the slimes still managed to capture their heads...」

Mauve-san whispered that. Looks like he was remembering something.  
If I'm not mistaken, they were neutralized in the same way.

(Lulu)「Did the ten people died...?」

(Yuki)「... Did you hear what we just said?」

(Lulu)「... Don't mind it, thank you very much for your help. If possible, I would like to tag along when you'll be questioning the two people.」

When Lulu-sama said that. She lowered her head to Yuki-san.  
...Should I learn from Lulu-sama's attitude...?

After all, he still think of me as a child... So annoying.

# Chapter 31 - The Holy Woman Growth To Adult From Child

Side : Lulu

I was still alive thanks to Herge-sama. She saved my life.

No that's not right, the one who truly saved me was the Dungeon Master from this place.

Now, this strange room had cushions over a mysterious grass<sup>1</sup>) Tatami: <http://tatamiuk.co.uk/wp-content/uploads/2013/12/tatamihealth.jpg>, should I sit there?. They were

paved around a

somewhat large desk where all the persons living in the Dungeon were sitting.

(Yuki)「Well, it's good that we finally helped Lulu. Now that we're done with her treatment, what's everyone opinion on the matter.」

The ruler of this Dungeon should be the one called the Dungeon Master, Yuki. I heard legends about him. He was the one who brought disaster to the Demon King, a true dragon amongst men.

With the help of the skill he named 『Call』, we were able to talk twice without seeing each other, but it was nothing like meeting face to face.

He looks fairly young.

Regardless of that, he was the one who stopped the civil war. The one who saved the losing country Roshuru from the invaders Gai and Ritea.

The one who created the plan that stopped this rioting. The one who saved many lives in an instant.

Therefore, I didn't understand why he was uneasy.

Why did he ask for the opinions of the others?

(Lutz)「Onii-san?...Err, Onii-san what are you planning?」

The person who said that might be one of the slaves bought by him.

The rabbit girl returned the question wondering as well what he wanted to know.

Rather, how could a slave make this kind of remark?

(Yuki)「At last we ended with that question huh...I think that it's slightly early. Nicely said Lutz. Hence, I will comment now that the operation had ended. Should I say that I had expected this developement?」

(Lutz)「Yes, and I want to help...」

(Yuki)「If I bring my opinon first, it will be hard for you to reject it, isn't that right?. I want you guys to help me. I don't want your opinion regarding what I said but regarding what you feel, alright?」

(Lutz)「However, that isn't what you wish from us Onii-san, am I wrong?」

(Yuki)「Oh~, my words were confusing. Lutz... Well everybody. I gave you food, clothing and shelter but I am a Dungeon Master, and from now on things will get seriously so, didn't you think that I was only doing that for my own convenience?」

(Lutz)「... I don't think that anything you did until now was wrong Onii-san.」

(Yuki)「Like you said, everything went smoothly until now. But I doubt it will continue. Don't misunderstand, I am only a person. Sometimes, I may be wrong. That's why I want your help. I ask everyone, please lend me your power. You can express your opinion here without worry. When I make a mistake, please hit me until it stop me. If its necessary, you may even do it until it kills me off. Like this.」

After he said that, he bowed. it was towards the slave that he bowed. I couldn't hide my surprise from what he said. He was so low profile that he stood out, he didn't care about dignity. To a Country, a King is a symbol. It was the same when I was a Holy Woman, I had to made a lot of things, everything in order to keep my dignity. Until now, there was no ruler who didn't take their dignity seriously. Something like bowing down to a slave is seriously unnatural. In this place, the slaves are free to do whatever they want now.

(Lutz)「Onii-san...」

The woman called Lutz probably had the same idea as me. She seemed to be embarrassed from his remarks.

Furthermore, the others didn't know how to react at all.

(Lulu)「...I will call you Yuki-san. Forgive me Yuki-san but your way of thinking is not the one fitting for a country. You as the Dungeon Master should lead the way. Like the ruler of a country would do to his kingdom...」

Althought I tried to correct Yuki-san's misunderstanding...

(Yuki)「Lulu, I don't want to become a ruler or something like a King nor a representative. Instead what I want is to be a typical person who lives in the country. I will protect it, nurture it and listen to everyone's opinions. Until now, the previous Kings have been symbols only by chance.」

(Lulu)「That kind of thinking...You can't do that!!. The King is a symbol!!. It's necessary for a country!!」

(Yuki)「You're a symbol too, the Holy Woman, didn't the people took it and use it for a rebellion?」

(Lulu)「Huh!!. There was some circumstances, I was prepared to it...」

(Yuki)「You didn't listen to other's opinions, as result didn't that happen?」

(Lulu)「...」

(Yuki)「In the end, the Holy Woman is barely a symbol that could be replaced anytime. Haven't you realized?. And the only necessity of a Holy Woman is for decoration.」

... It was as he said.The King and the Holy Woman just have the highest power of speech.

All the retainers opinion are ignored. The King is the only one as a symbol.

(Lulu)「... What about the nobility?... And the persons from the church?, the law?, and the relatives by blood?」

Somehow, I said everything I could think of.

Laws are something humans decided upon.

And it's already set from your birth.

Unless you don't respect the Goddess unlike me and don't practice enough, there are things you would never be able to reach.

(Yuki)「You make me laugh. Hey, since when were the country of Herge and

Lulu created?」

(Lulu)「...?. The Holy Country of Ritea was formed 400 years ago. At that time, the people from the former country Reus were impoverished. The first saint took over the country and founded it anew. 」

(Herge)「The country Hiruni was in ruins 300 years ago. To save the people from this country, a swordsman journeyed with other people, defeated the tyrant lord and founded the current Roshuru Kingdom.」

While I was wondering why he asked us about such a thing.

(Yuki)「Like you said , their ancestors were commoners. They became rulers without being from a lineage of nobles. They were strangers coming from some far away place.」

All the things said by him came in waves into my mind.

(Yuki)「The people who made your country saved your people. Then, they used it...How?. Because they had heard how to do it. They had seen how to do it. And since they knew that, that's why they had the confidence to save your people and that's why they did it.」

Yes, the ancestors who saved our country were free people.  
Therefore, our countries...No, I understand what they were seeking with it.

(Yuki)「That's why, you and the other girls had to lower your heads. Then you met with slavery, commoners, family, nobility and other things. Can you see it?. Listen, in my Dungeon I will make a village or a town which would be its own symbol... And I think that representatives would be suitable to manage it. Many would be able to make a better job than me. I would be an arrogant if I say that I'm absolutely right. I only have some knowledge and abilities that may surprise some guys but that's all.」

That was what he wanted to say.  
He wants to make a special place where people can share their opinions.  
And he wants to make that kind of place here.  
Even though he is a Dungeon Master.  
He wants the people from the country to become his representative.

(Lulu)「Err, emm Yuki-san, why do you have that kind of wish?. What is it that

you seek?. If every man and woman had this kind of knowledge 2) about politics, leadership, etc , then there would not be any meaning anymore in having our current society. It's a tremendous dreamlike story. There's no way such a sweet country could ever exist.」

So what he wants to do is, to have the people from the countries with knowledge to become representatives and have everyone think about the laws. A commoner can't know something like that.

And giving such knowledge to everyone from the other countries is impossible... That's why the knowledge is only limited to nobility.

Because of that, I said to him that it was merely nothing but a sweet dream.

A superficial story, just like in a tale.

But he easily answered back.

(Yuki)「Sweetness?. That thinking is only child's play. Just because nobody could think of that, such a country can't exist?. Does anyone not wish for a place where dreams, hopes, and where any person disregarding of their race and gender can express themselves freely, can such a country not exist?. The thing you are calling 「Sweet」 is only a mere excuse.」

I was dumbfounded. Yet, he continued further with a smile.

(Yuki)「In the over optimistic and sweet country Lulu is talking about, anyone can give his opinion and propose a law that would involve many people. That will certainly bring various hardships along. However, I think that this kind of country would be fun. Even more, I'm sure that it will be a good Country. It goes without saying. Therefore Lutz give me your opinion. Do you think that a place where the King has become the absolute ruler is a good thing?」

When he declared that, he turned his sight to the way Lutz was sitting.

(Lutz)「...Onii-san, it's an excellent opinion... With that we will become really busy from now on...」

(Yuki)「I'm in the middle of making the Village or Town inside the Dungeon. I will entirely rely on you for the Management~」

(Lutz)「Gya!?. You said an amazing thing so casually!?. We are amateurs you know!?」

(Yuki)「Well, I already knew about that. In this meeting I will give you the specific parts and ask you to express your opinions. In the end, we will make amendments for whatever thing could be missing. To keep everything in order, I would have you from the Rabbit Tribe become the head representative.」

(Lutz)「What is it with that crazy title!?. I know what it means but I don't understand!!」3) Lutz will always be Lutz

The many women from the different tribes seemed to be surprised as well. ...Well, even though they were from different species we couldn't see that here at all.

...They didn't feel different from my status either. So far, I only thought that I had to lead people alone. Because of that, I worked hard, worshiped the Goddess and mastered my Magic.

Yes, it was like that. I became like this because of my own efforts. I didn't do anything special. I became special. Why is it that I thought it would be impossible, I just didn't know. ... It was arrogant. It was natural that my position as the Holy Woman was aimed at.

(Lulu)「Yuki-san no, Yuki-sama. Did you help me only because you wanted to hear my opinion?」

(Yuki)「Eh?, Sama?. Oh, whatever. Lutz and the others, should we move forward with the City's talk?」

(Lulu)「Even if I'm a stranger, I would like you to shelter me inside this Dungeon.」

When I said that, everyone became quiet for an instant and the girls were looking towards me.

(Lutz)「You said something quite funny there. And now there is no merits for us to hold Lulu-sama here. I mean, Onii-san wants to know about our opinions. So I will say mine clearly... You are an absolute hindrance, please leave this place now, just go outside and die ok?」4) Here Lutz changes her manner of speech to one of a total despot

When Lutz said that, the young women agreed, nodding with their heads.

(Herge)「What are you saying!! Lulu-sama doesn't need leave!! Please Yuki-san don't do such a thing!!」

Herger-sama came in front of me and faced Yuki-san. She wanted to plead for my protection.

(Lulu)「Herger-Sama, our opinions and emotions don't have any value in this place. However, I'm really happy for your intentions, but can you fall back?. Please, listen to this carefully. This world is something that Seraria-sama, Aria-sama, and the King of Roshuru didn't want to show you」

When I said that, Herge fell back behind me.

(Yuki)「Lutz and the girls seem to be against we protecting you. Even if I raise my voice, You will have to confront Lutz and everyone by yourself.」

Yuki-sama was relaxed. He said that while sipping his tea.<sup>5</sup>) The nerve xD  
Now my status seemed to be even more useless.

(Lulu)「I had that intention.」

I answered back to Yuki-sama. I wasn't the symbol of a country only for show.

(Lutz)「Hah!, then go ahead. Explain yourself please. However, I don't know how an official or the Holy Woman of Ritea could benefit us at all?. And Lulu-sama was about to be assassinated just now. Even 12 of your guards cooperated to try and assassinate you. What will you do once you reach back to the Holy Country Ritea?. If you go back now, you'll be handled as a fake. Even if you can return it would be a situation where you'll be surrounded by assassins at anytime.」

Lutz who seemed to be highly educated turned around to see me.  
As expected of the representative Yuki-sama bowed his head to.  
However, they shouldn't take me lightly.

(Lulu)「As Lutz-san said now, I am a simple person. And I would go out of my way for the people important for me. I know that I would bring no benefit to this Dungeon. However, if I should go outside and die, the event until now and all the informations from this Dungeon, I will tell them to the Holy Country Ritea.

Then I would accomplish my revenge against this Dungeon which didn't want to shelter me.」

(Lutz)「What!?!」

(Herge)「Lulu-sama!?!」

(Lulu)「I swear that if Yuki-sama shelters me and gifts me with his Guardian Appointment, my actions will be limited and restricted only to this Dungeon. And I swear to answer about everything I know regarding the Holy Country Ritea, different informations such as the military and the laws. I am now ashamed that I was one of the top positions in Ritea. Also, I'm certain that I can help Lutz regarding the Management.」

(Herge)「No, you can't!! If you do that Lulu-sama, then you will betray your country!?!」

Herge wanted to stop me.

(Lulu)「Herger-sama. The fact that I can't return to the Holy Country Ritea is definitive. That's why it's not like I am betraying them. And if I don't do that, for how long would I be able to continue this kind of random life」

(Yuki)「As for you Lutz, what do you think?. She says that she can be useful.」

They didn't seem to react the same as they did when they said those remarks. But they don't seem to be as kind as a breeze yet.

I'd also like that they would follow up.

Yuki-sama will tend to agree with Lutz-san and the young women wouldn't he?. So if Lutz-san say that she wanted my death here...

(Lutz)「...To kill you here or to throw you outside, both are good options right?」

(Lulu)「Would you go that far?. Do you really want to do that?. It could be possible that once they find me, there would be accusations against your Dungeon right?. Am I disgusting to the point where you don't want my help?. In the first place, even if you hide it Lutz-san and the young women, if by any chance the truth gets discovered, what would happen to this town?. For Ritea, it will become a good reason to condemn this place.」

(Lutz)「If we killed you here, do you know that you would become a good fertilizer?. In your case Lulu-sama, I wonder if you will become a lot of DP~」

(Lulu)「...Wha-!？」

Oh no!. If they kill me here then they won't meet any problem.  
Something, I must find something to stay alive...

(Herge)「That's no good!!. I'll never let you kill Lulu-sama!!」

Herge raised her voice, threatening Lutz-san and the girls.

(Lutz)「The useless Holy Woman over there please fall silent. Now, you don't have the right to speak anymore. Do you understand?」

(Herge)「I do!!. If you agree with me and help Lulu-sama, I'll see with Father and we will give you even stronger support!!」

(Lutz)「Ho?... Onii-san, did you settle the affair with the country of Roshuru already?」

(Yuki)「No, because we stayed here, so I don't know. We will get the details when Seraria arrives」

(Lutz)「Ufufu, hopeless Holy Woman, Herge-sama. What will happen if you can't hold your promise?」

Lutz-san said that and scowled Herge-sama.  
The legs of Herge-sama where trembling. It couldn't be helped. Because the negotiations hadn't happened as of yet.

(Herge)「We-, well... that!!. If at that time we fail then!!. Lulu-sama's... by my owns hands I'll behead her head !!」

I couldn't understand her words.  
My head was not yours, kind Herge-sama. You can't wage it like that.

(Lutz)「...Going as far as betting her head, well it's a dangerous gamble because the members of the royal family are rotten. Hmm~, if Roshuru increases their support and if you give us information about Ritea I can compromise. But I don't know if Roshuru will hold their promise so...Please wait a minute, I'll talk with everyone. As Onii-san wished~」

When Lutz-san said that, Herge-sama body sunk to the floor, shivering.

(Herge)「Huh huh, I'm so sorry. At this rate Lulu-sama will...」

(Lulu)「No, Herge-sama. Thank you so much for trying to save my life. If it was just me, I wouldn't have been able to convince them. You don't need to hold a grudge against yourself even if I die, Herge-sama.」

I grasped Herge-sama's trembling hand and said thank you. She was so small but she kept growing up. Even if I die here, I'm certain that she would stay positive.

The meeting of Lutz and the young girls was over. And Lutz-san was coming over here.

(Lutz)「Very well. We have decided to shelter Lulu-sama. However, there will be a few conditions, I will tell them to you in a short while.」

Apparently, I managed to survive...6) They totally forgot about Yuki's intentions there...

# Chapter 32 - The Fundamental Of Things And It's Meaning

Side : Herge . Rau . Roshuru

Right now I was in the room of Yuki-san with Lulu-sama.

We were now continuing the discussion about Lulu-sama's treatment of the early afternoon.

Lutz-san accepted us only after an unthinkable and tremendous demand.

(Lutz)「The first of the conditions to shelter Lulu-sama is the following: I want you to personally attend to onii-san, Yuki-san's sexual needs everyday from now on. While you're at it, please become pregnant.」

(Herge)「What!?!」

I was left speechless. Even as a joke, what a terrible thing to ask for a Holy Woman, even a normal woman.

(Lutz)「Oh? Isn't this considerably conceded?. To be honest, I wished for you to have sex with goblins. But if I did that, Lulu-sama couldn't give us information after being broken. As you said Herge-sama, don't you agree that she can help in many things, including non standard ones?」

(Herge)「Of course I agree!! However, such a condition is hard to swallow...!!」

(Lulu)「Please Herge-Sama, calm down. They only want to see my determination. Herge-sama, my life is on the line and if I do something like this, the girls would rely on me and trust my words.」

(Lutz)「When Lulu-sama receives the Guardian appointment!! She will have to provide information!! Giving useless information isn't allowed!! You must deserve our truth, okay ! ?」

(Lulu)「Of course, when I receive the Guardian Appointment, that's it. I had already decided to demonstrate my determination and prove that you'll gain a lot from sheltering me. Also, Guardian Appointment doesn't seem to give an obligation order like a slave contract would. This means that the information I

will pass on you could be a lie. Therefore, it means I must give my all in order to gain your trust from the very beginning.」

That's right, as Lulu-sama said, if I don't want to decapitate her neck, then it's best if she chose the way that would make everyone trust her.

That means that I can only believe. Believe in Lulu-sama.

(Lutz)「As expected of the Holy Woman of Ritea, you would said that? Will you accept? We all really want to believe in Lulu-sama, but you will need to answer the question first for that. Well~, that's if Lulu-sama really offers her body and doesn't disappoint us. That's our terms, do you accept them?」

Lutz-san said in reply to Lulu-sama's words.

I couldn't interrupt. Otherwise, I may just worsen Lulu-sama's position.

(Lulu)「Understood, I will happily take care of Yuki-sama's sexual needs. If I don't become pregnant within 1 month, it's fine if to behead me.」

Without an ounce of hesitation, Lulu-sama responded.

... I wonder if this is the world Lulu-sama didn't want to show me.

A world where people didn't have dignity.

(Yuki)「Pfft!? Wait a minute, hey!! I was leisurely enjoying my tea and what is with that unthinkable development!?!」

For the first time, Yuki-san joined the conversation in an aggressive way.

As of now, that was the first time I saw him this upset.

(Lutz)「No~, it's not any significant problem. Isn't this the minimal we should be asking for, in order to give a helping hand and shelter to Lulu-sama?」

(Yuki)「A lie!! That's a lie!! To say that I would only use Lulu-sama as a mean to make children, isn't this terrible!?!」

(Lutz)「It's not unreasonable~? No matter how you look at it, Lulu-sama agreed with this fair and equal condition」

(Lulu)「It's a pleasure to be with you from now on. I may be inexperienced since this is my first time, so I hope you will be gentle with me please. 」2)  
Imagine this scene with her bowing

(Yuki)「Yatta!! I will just do that!!...Did you seriously thought I would say

that!? And how do you expect me to embrace you for a whole month!?, we don't even know how many months it will take to have a hard chance to hit!？」

Yuki-san kept talking about that.

...No...1 month to become pregnant... how? They would need to do that every night and every day... right?.

(Lutz)「Hou? Onii-san, didn't you want to reach this point on purpose because you didn't want to kill Lulu-sama? If you're not lucky even after 1 month... fumu, that proves to be a problem. Labiris-chan, how should we handle this problem?」

Lutz-san who was sitting next to the little girl said that in a sort of amusing tone.

(Labiris)「... It's easy. We only have to watch. If they don't embrace properly, we will only need to help them. If necessary, we may have to demonstrate a sample.」

(Lutz)「Ahaha, you did a good move there. Like this if we watch after them, we can prove that Lulu-sama isn't at fault after a month, how about it?」

(Labiris)「...Well, if we do such a thing, maybe one of us could end up pregnant right? RIGHT Yuki?」

(Yuki)「Did Lutz plan all of that!? Also, why are you part of it Labiris!?」

(Lutz)「Ahahahah, althought we are OK, onii-san, weren't you obsessed with Lulu-sama's breasts? I mean, don't joke with us?」3) she actually said: fuzakeruna, you probably saw it in an anime when a character shells to not screw with him/her

(Labiris)「...Yuki is being so rude. Breasts are eagerly waiting for you here.」

Following the quarrel of Yuki-san and the girls...

(Lutz)「Ah, Lulu-sama. As per the condition, from today onwards, please attend to onii-san sexual needs.」

(Lulu)「Yes I understand. Using my chest, I will serve him within the best of my ability.」

(Yuki)「...Lulu-sama, don't pursue this anymore. This was only prepared as a

test. Anything further is unnecessary.」

(Lulu)「Now that I made my promise, I will stick to it. From today forth, Yuki-sama and I will unite our voices, the rest of you can cheer for us.」

Was it my imagination? Or did sparks fly through the air for a moment?.

That's why we are in the Yuki-san's room now, but...

(Lutz)「Hey hey, onii-san. Wouldn't Aslin and the rest wake up if you do too much noise?」

(Labiris)「... You should give up already.」

(Yuki)「N—ooo!! So-Someone!! GODDESS please!!!」

I carefully listened to the conversation and heard the above-mentioned gist of a sentence.

I wonder what was that about? The young man had his clothes stripped away and sat reluctantly on the floor drawing ㊦s. 4) When in mangas/animes the character squats on the floor and draw circles

(Lulu)「Thank you for having me in, as per the agreement, here it is Lulu... umm do you want me to help you?」5) She spoke in 3rd person here

(Yuki)「I-I'm saved!! Lulu please help me...and you two are acting weird!!」

(Lulu)「Oh～, Can I really come?」

(Yuki)「...What do you mean?」

(Lulu)「As long as I have a good reason, it's fine to do it with Yuki-sama, right? I am willing to help you, Labiris, Lutz.」

(Yuki/Herge)「Eh? Th-that, Lulu-sama?」

While Yuki and I were confused, Labiris-chan walked to Lulu-sama and they made a firm handshake.

(Labiris)「... I am believing you. We will surely become good friends.」

(Lulu)「Yes, I think so as well.」

(Yuki)「Gya～, I can't understand the meaning of that. What..what did you agree upon!?」

「Ehen~, onii-san. Isn't women's friendship hot? It seems even I will be able to get along with Lulu-sama happily.」

In a moment, the conversation became slightly noisy.  
Which caused the lovely Aslin and Philia to woke up.

(Herge)「He-hey...it seems that Aslin-chan and Philia-chan have woken up...」

When I said that, everyone stopped their movements.

(Yuki)「Yosh, because we will continue the story. Let's move to the banquet hall.」

(Lulue, Labiris, Lutz)「「Tch」」6) clicking tongue

Was it my imagination? Or did I hear everyone except me click their tongue?.  
When I went out of the room, Oriel was waiting as usual.

(Oriel)「Oh, you ended already... well that doesn't seem to be case.」

(Herge)「Yes, because Yuki-san seemed to have something else to say we are going to the Great hall. 」

(Oriel)「...Indeed, but you don't seem overjoyed by that? Did his balls shrink?」

(Yuki)「Oy you!! Don't say misleading things like that!!」

Didn't Yuki-san had enough yet?.  
He drank tea all along since we started from the Banquet hall.7) Intended pun here. Basically Oriel is calling Yuki a coward while Herge thinks she is referring to Yuki drinking so much tea that he needs to go to the toilet

(Yuki)「Well then」

(Labiris)「Are we doing it here? Was there a problem with the mattress?」

(Yuki)「Geez, leave me alone. Lulu, do you have anything you want to said regarding what you did?」

Pausing, Yuki-san looked at Lulu-sama with a serious look.

(Lulu(「I didn't become senile. Shall we show them that I can become pregnant within 1 month? Well, let's put jokes aside. Continuing from where we started at lunch. As Yuki-sama said... Democracy, was it?」

(Yuki)「Hee, so you were aware after all uh?」

As Lulu-sama displayed a joking face, Yuki-san became earnest.

(Lulu)「Once, there was a hero who visited the Holy Country Ritea and defeated the Demon King. Trying to enrich people's life, he made a few literatures.」

(Lulu)「What were the results?」

(Lulu)「The hero of that time had good ideas and tried to expand his ideals to some extent. However, not many agreed with him and he retreated quickly after a revolt started against his ideas.」

(Yuki)「Sigh, so, what do you mean Lulu?」

(Lulu)「... I want to express clearly...it is impossible for Yuki-sama to make a town or a village in this Dungeon the way you want to. Please reassess your idea.」

I see now why Lulu-sama disagreed with Yuki-san, she had a good reason. And I understand that failure is absolutely not permitted. According to me, the opinion of Lulu-sama was correct. To allow useless people to participate is outrageous.

(Yuki)「Certainly, in that case, it will absolutely fail. That's too dreamy even for a hero. What Lulu said, I already understood it.」

(Lulu)「Then?」

(Yuki)「However, I plan to pursue this policy.」

(Lulu)「Why? Even when you know that it would fail.」

(Yuki)「Un~, can you notice that the premise is different? You should think carefully. The people will gather here because they hate the others places. Nobody was able to change the law of an existing village or town from where I came from either.」

(Lulu)「Oh」

(Yuki)「Gathering here will be a majority of people who hate the current regime. The people who failed in your perfect policy will gather here. Maybe

I'm misunderstanding, but isn't this place already under democracy? Of course, it is, but where the Hero went, it wasn't right?」

(Lulu)「What do you mean?」

(Yuki)「In accordance to the absolute way the hero decreed, I can do it. For that place, it was the first time the hero tried to set and create a democracy. In other words, it was a battle between an absolute monarchy and forced democracy. A long one」

Indeed, I could understand Yuki-san as well.  
Until now, it always was a problem if a new system was set up where an existing one was already functioning.  
However, here was a different one since the beginning. And the finality was, if someone didn't like it, he could simply go away.  
However, I was still wondering. Didn't he feared the risk of failure if he put it into practice?.

(Herge)「Erm, Yuki-San, just as Lulu-sama said, do you want democracy here? Do you think people will accept it?」

(Yuki)「Well~, it has more than 90% chance to fail maybe? If the monarchy was mainstream up till now, we will have a lot of groundwork to do. To be honest, wouldn't it be more stable if we used the method you two said?」

(Lulu)「In that case, why do you still want to use this approach?」

(Yuki)「Oh, it's easy. The hero didn't make enough preparations. And unluckily, the circumstances were bad. That being said, this Dungeon would be the best place to enforce democracy and should definitely be a success. At any rate, I'm young and this can be used as a pretext. That's why, I will not go out and cast the Guardian Appointment skill carelessly from now on. As you know, this city will not own any military power. In other words, outside of negotiation, there is no way. Everyone here will be a representative and given the Guardian Appointment. Under that, you will be able to maintain perpetual youth and manage this place properly.」8) He just said something amazing didn't he?

Of course, like this, the reason Lulu-sama said regarding the previous Hero does no longer exist.

It was as Yuki-san said, if he really possessed eternal youth, then he could keep

this system running forever.

(Yuki)「Well, I will explain what means we should take to stabilize this because we didn't talk about that yet. Would you always give up when you are told that it's impossible?」

Everything this guy said is mind challenging, for Lutz and the young girls, it will be their first time. However, it was more or less the same for everyone.

(Yuki)「I'll guarantee the security as much as possible. As for everything you said, it's unprecedented. Furthermore, there's no example of success, you can probably call doing this is reckless. But even so, when the people revived your country, they did an amazing and unprecedented job to form the country. I won't be impolite if I said that they made the country for you, the inhabitants. That being said, how long will you need to understand that it's possible?」

It's as Yuki-san said, the founder stood at the top of the country for the sake of the people.

It would be a mistake to ignore that...

(Yuki)「Like that, didn't everything end well even when Herge and the others made a mistake? Here is a place where you will be able to take the technique in hand since the start. There, the place had poor circumstances for the hero. In your country, if democracy is urged, then it would only escalate as a civil war and insurgency. Because they are afraid. Afraid that what they own would disappear. Everyone's manner of doing is wrong, but it's fine to do mistakes. I won't force my opinion on you. But I hope that you, after listening my story, would change your mind even for a bit. To accelerate suddenly isn't good. Until it's the good time, we have to cultivate it. To set it as a tradition, or as a good example. When we make this place, and the people would be able to see it, I hope that you would judge it in a good way.」

Yuki-san was telling us to look at the results of the experiment by ourselves. And after that, we can do it to our own countries.

(Herge)「But that is... well, aren't you too pitiful!? To put your hands on something we fear, to laugh if it fails and to favor this place if it's a success... why?」

(Yuki)「Hai hai, calm down. Herge now, did you just said it was pitiful?」

(Herge)「...Yes」

(Yuki)「We... no sorry, I have my reasons to do what I want to do and I'm not playing around, I don't consider myself pitiful. But, hey Herge, you do have a reason, weren't you the one that I treated unreasonably. So aren't you the pitiful one?」

(Herge)「No, you saved my life. Now it looks somewhat like a quarrel, can't we add our opinion in between? On the other hand, I think that I was rather lucky.」

(Yuki)「You can, however, the other person will probably not agreed when he gets hit by so many opinions. You are happy. You are unhappy. Or something like that. What is it?」

(Herge)「... It's arrogant. My opinions only came from my point of view. I think that I am being treated unreasonably and I don't want to look pitiful.」

(Yuki)「Ou, me too. To anyone, if they had great powers, they would be happy, just like the main protagonist of a story. But to be honest, it's just irritating me.」

(Herge)「Eh?」

(Yuki)「You already know how I came here.」

(Herge)「...Yes」

(Yuki)「Even though the situation I'm in seems a happy one. It's not a happy one at all. To arrive until here, I had to make use of my powers. But the process by which I came till here never made me happy!!」

Yuki-san shouted. In a very sad voice.  
We mistook him for a transcendental being.  
And we forced it.  
Therefore, he vented out his frustration.  
Because he is a Dungeon master.  
A Dungeon master isn't something fit for reason.  
We blamed him when he created an escape route.  
We criticized him when he did weird things.  
... If it was you, you could do anything.

However, what happened was natural. Even he is afraid.  
After all, he is only a person too.

I was surprised of Lulu-sama who looked in dissatisfaction at Yuki-san when he complained in front of us.

Labiris-chan and Lutz-chan displayed very astonished faces.

(Yuki)「Hah, sorry sorry. Labiris, Lutz. It's not that I hate you guys. Please, forgive me. Well, it's just that sometimes I want to shout too.」

(Lutz)「...Onii-san.」

(Labiris)「...Yuki.」

Both of them made a wry and apologizing smile to Yuki-san.

(Yuki)「Though I am ashamed, I want this town to resemble my hometown. Well, thinking that this way have many advantages isn't a mistake. That's why Labiris, Lutz, altought I am a miserable coward, please help me.」

(Lutz)「... miserable huh. I cannot let Onii-san do that alone. Or I would have unbearable worries.」

(Labiris)「... As I sworn. Till the end, I'll stay with Yuki.」

Next to me I saw Lulu-sama who suddenly said.

(Lulu)「... what can I say, there are still many things we need to do. Herge-sama, I will support Yuki-sama in the future, I think that we have a slight chance of success.」

(Herge)「Yes, I firmly intend to catch up as well.」

A little more calm Yuki-san spoke.

(Yuki)「Well, that was bad. I showed something ugly.」

(Herge)「No」

(Yuki)「I did not say the thing I wanted to say the most. Lulu, Herge, why do you think I argued with you when you said your opinions?」

(Herge)「Eh? Because we forced it unto you and it was unreasonable?」

I answered that by reflex. Well, until now, he made the Demon King

responsible, deliberately injured Lulu-sama even so, Lulu-sama though of Yuki-sama's future.

(Yuki)「That wasn't the only reason why you argued right?」

(Lulu)「...Oh, how to say it...」

Lulu-sama noticed something and became perplexed.

(Herge)「Eh, Lulu-sama, did I say something wrong?」

(Lulu)「Herge-sama, just now you seemed to have a different viewpoint than before.」

(Herge)「Viewpoint?」

(Lulu)「Herge-sama was bad in regards to the politics of other countries. No, you couldn't even understand how your own country was ruled, am I right?」

(Herge)「Such a thing... Ah!」

I understood what Lulu-sama wanted to say.

As for what we were doing ...

「Yes it is.... It is a complete intervention in politics. Moreover, I didn't go through any procedure. It was like a regular civilian banging the gate and directly calling to the King... Like an act of barbarism」

What we did lacked of any etiquette.

But, that's embarrassing...

(Yuki)「But even if you think of me as the evil guy who instilled democracy, it's fine. I don't need dignity, I'll be tolerant to whatever opinion you may have. Well, you all came from different countries, that's why I expected you to interrupt my speech. And that's why I made use of Lutz's and the girls's motivation.」

Guh...such shrewdness.

(Yuki)「Well, we're arriving at the end for today. The day will become over soon, let's go to sleep. There's still various things for tomorrow～」

Yuki-san tried to leave but he was held by Labiris-chan and Lutz-chan.

(Lutz)「Nope nope, didn't you omit something just now? Please correct your

half-hearted resolution and decide. Now that we know about Onii-san's feeling, do you want to act like a spoiled child?」

(Labiris)「...it is fine, you can cry a lot in my chest.」

(Yuki)「There's no way I can do that right!? There's something called the pride of a man. After all, in my former country I was a wizard (A 30 years old DT9) DT stand for Doutei -> Virgin )...」

(Lutz)「...don't be so whisy washy. Lulu help me.」

(Lulu)「Yes, you can count on me.」

Like this, Lulu-sama happily joined them.

How should I say it, it was fun. Position, standpoint, tribes, relation, nothing mattered.

As Lulu-sama said, Yuki-san had a tremendous dream.

... That's why, I'm aiming for it.

Simply, it's good because it's a dreamlike story. I hope that a scene like this would overflow all over the world.

I'd be happy.

I was really intrusive...how arrogant.

Even if you understood this happiness, everyone couldn't be happy, but still...

When you see a light... You want to reach it.

(Herge)「Our ancestor who founded Roshuru was probably like this...」

My arrogance, I even pushed it over my father. My selfish emotions and imaginations.

Even so, I thought that this scene wasn't a mistake.

(Herge)「I must become strong...Oriel, I think that I will walk on my own path from now on. Will you come?」

(Oriel)「Until my life ends, forever.」

# Chapter 33 - The Meeting (First Half)

I wanted to clean myself...

At that time, I took the crying Aslin and Philia under my arms. We were heading down the hallway.

After everyone suddenly disappeared, they seemed to have remembered something fearful.

Naturally, they remembered things of the time before when they were still slaves.

Assuming that I thought everyone was here, but they disappeared right when I woke up, I would be afraid too.

I was able to survive that day thanks to these two angels.<sup>1</sup>) Almost raped in chapter 32

This time, I will serve them delicious things.

And now, we were once again gathered inside the banquet hall to discuss our future plan.

(Yuki)「Today, I want to earnestly talk about the future Management of the Dungeon. Because my intention is to listen to everyone's opinion.」

Saying so, he looked at the face of everyone present.

(Yuki)「Although I already said that, but you're no longer slaves. You are now proper official subjects. I know that what we will be doing now may be hard to understand so suddenly. That's why, I will hold the meeting until you get accustomed. Hope you will forgive me for that.」

Lutz and the girls nodded.

(Yuki)「Okay the first thing is to decide whether to make a village or a town. I wonder what will be better inside this Dungeon?. Even though it's boring, we have to start from the basics, that's why we need to write everything down. Right now, besides everyone there is a sheet of paper. Please write the necessary things on the sheet, the ones who can't write please pair up with the ones who can and share your ideas. As you see, because there is a lot of paper you can write everything without worry. Let's think for 10 minutes at first and

share everyone's ideas.」

By the way, the ordinary people from this world didn't have a watch. Apparently, a bell rang inside the towns and villages to announce the time. Only the royalty and a few amount of people were able to afford luxury goods. Everyone was surprised at first, but I had to teach them how to read a clock, it would prove useful in the future.

Here, some of the members spontaneously separated from the others. And the ones who could write attracted them. It was natural, but the people gathered and united with their preferred partners. Well, there might be troubles in some of the groups but I assured ahead that there would be none.

First of all, Labiris, Aslin and Philia.  
A set of three people. They had no problem at all.

Next were Lutz, Ellis and Millie.  
The educated members went together. Pretty stable there.

After that came Kaya, Tori and Riel.  
Here was the furry group as expected. In a sense, an opinion specific to beastmen appeared here.

Last were Herge, Oriel and Lulu.  
The Princess group. Herge was a guest from another country so she shouldn't be participating here.

But Millie accepted her, so she was.  
Something seemed to have changed yesterday or today with her.  
But truly with Lulu there, no problem should happen.

By the way, I wanted to hear Mauve's opinion as well.  
As an adventurer, he should know many things and help in many ways regarding the Dungeon.  
But I was turned down 「Bothersome」he said.  
Well, it's not bad since we had an objective side listening.

Thinking about this, I prepared the white board and 10 minutes had already passed.

(Yuki)「Okay, well...time's up. I'll hear Ellis's and Herge's group at the end. Looks like you wrote a lot of things. The first should be Labiris' and Tori's. Which one of you would like to start?」

(Lutz)「Well～.It's fine to start with Labiris-chan I think.」

(Labiris)「...Is that So? Thank you.」

Labiris said that and passed the paper she wrote to Aslin and Philia.

(Aslin)「Well, that's about it. We want a place where we can play!! Surely I think that it will be fun!! We'd like something like a plaza with a squar shape!! We also want a field where delicious foods can be made!!」

(Philia)「Also, together with that, I want a workshop where I can produce many things!! Because I will do my best!!」2) Remember she's a dwarf, and acordding to fantasy lore, dwarves are born-artisans

The former was Aslin, the later was Philia.3) For your information we are the ones who put the name of who is talking before the conversation, the author kinda hopes that the reader will identify who talks and from time to time mentions them like in this sentence

It seemed that they said what they wanted. But rather than wanting, these things would be absolutely needed.

Well, It will be strange if things like this pop up out of nowhere inside a Dungeon where nothing should have existed before, but it's something good to do in the future.

(Labiris)「...As expected of the children, don't you agree? I think that from now on I will need to live at a place where other people live.」

It was Labiris opinion. She was helpless when she didn't have a place to live.

(Yuki)「I see, I see.Everything you said was justified.Then, what do you think? There is the possibility to not make that depending on the given opinions.Furthermore, if the Beastkins and the Humans want to live together, we need to think of the disturbances beforehand.」

I was encouraging everyone to participate.

(Lutz)「Haa～, indeed.This is a meeting to exchange opinions～.Thinking

alone, a hole is likely to appear. It is the same with what Aslin-chan and Philia-chan said, there are also other implications in that as well～.」

(Ellis)「Yes, there is also the main street of the town and the meeting room which should correspond to what Aslin said. Now that she mentions about a field too, I think that it's natural. And the forge, although Philia is the one who wants to use it, the number of people who will want to use it too, will probably increase. For a workshop, we will need to take various things into consideration.」

Lutz understood the meaning of the conference while Ellis understood the advantages of Aslin and Philia's proposition.

(Millie)「That's right, listening to the opinion of others, the opinion we wrote might change, isn't it? That reminds me, I had a question, can Yuki-san make the daily necessities created in a Workshop or a field, consuming DP? If he could, won't a workshop and a field be unnecessary?」

Millie, I understood you, but did you want me to cover everything?

(Yuki)「Well, I may be able to do it. However, that won't resemble a village or a town afterwards. If we want to make something that works, we will need livestock and other things. Because at first when the immigrants arrive, I plan to substitute anything we are lacking with DP but please don't rely on that forever.」

(Lutz)「That might be the case...however, won't the conflicts reduce if onii-san took care of them? Rather, wouldn't this place become a paradise? Because of food and safety? Could the DP drops because of the corruption?」

If that easygoing method that Lutz is talking about is used, it wouldn't do any good.

(Yuki)「The Dungeon will be safe as long as I remain alive. But if by any chance I die, leave this place.」

(Labiris)「...This paradise can collapse in no time, that's it? That's why, even though you will give them protection in the beginning, you want them to become pro-efficient enough to be able to protect themselves?」

(Yuki)「In that case, because I thought of a way to protect you all, I created

emergency means. And I want you to use them when the time comes.」

(Everyone)「Roger.」

(Yuki)「After hearing everyone's opinion, I will decide on what to do and the range of which I will interfere. That's because it takes too much time to answer about each separate topic.」

Everyone nodded. For the time being, I wrote all the opinions on the white board.

(Yuki)「Now, let's continue with Tori's group. Is that ok with you?」

(Tori)「Yes, it's fine. For starters, I think that it's necessary to bring the outdoor hot spring, they would love it!! Without a doubt, it will surely become popular!!」

For an instant, I remained silent. To answer what was said before, Aslin tilted her head in agreement.

(Lutz)「...Indeed, entertainment facilities...We could offer a place where people could watch theater, or a place where they could drop money, a place they would call extraordinary<sup>4</sup>)Casinos, etc.... If we do that, we might be able to collect money without using DP. Tori-san, you're awesome. As for how to create various entertainment facilities. If we perform well, it can become our center of interest. While we do business with others countries, it will be easy to catch the interest of people. They will easily understand what benefits they will get for living here.」

(Tori)「Eh, ehh? Th-at...such intention...」

(Lutz)「Ahahahaah, it seems that I have said something different than Tori-san. However, I thought that Tori-san would be delighted as well with this plan. Ellis, would the inhabitants sometimes enjoy preferential treatment? If we set the price for half, after a few people start living here, won't more migrate later?」

(Ellis)「Hmmm. Lutz as a merchant should be the one to undertake that job. However, the method to see through the inhabitants...」

That way, the things Tori said were left behind. Lutz and Ellis were deepening

on various subjects.

(Millie)「If you make outdoor baths in the town or village, please put a lot of sake inside it!! People will complain if they can't find any!!」

Millie said that, leaning forward.... Please calm down.

(Yuki)「Ellis, Lutz don't go that far yet. We're still not finished, we need to hear out the rest of the opinions. Also Millie, keep your composure. Because I'll write it, Outdoor bath (Sake required). Now, we will continue with Kaya and Riel.」

To get the rushed things down, I wrote her idea on the board. Outdoor bath (Sake required) = entertainment facilities.

(Riel)「I want a place like an adventurer guild and a place where I can move my body freely. Some training grounds maybe?」

(Kaya)「...I want a lawn or a small place to grow grass. Especially onto the ground of the place... It's hard to breathe there」5) As in the cities

To Riel's opinion, I'm able to consent. But a training ground... how should I handle that? Apart from that... to make an adventurer guild? However, Kaya's idea was somehow...different? The earth was suffocating? Her opinion, was it like the modern Japan which was increasing its greenery?

(Ellis)「Well, I understand what Kaya said」

(Lutz)「I agree ~」

(Oriol)「Actually, I thought the same thing.」

(Yuki)「What do you mean? Is it important for the Beastkins and the Elves?」

Ellis and Lutz agreed in addition with Oriol.

(Lutz)「Ah~, onii-san you're from the Human tribes. Therefore, You may not feel that too much...」

(Ellis)「The Elves and Beastkins need a place like a forest to live, or a place overflowing with greenery.」

(Oriol)「Although it might not be so uncomfortable for the ones who were born inside a town/village. But the ones like me who grew up inside one of those places6) Cities... For us, a life in the Royal Capital is the ideal.」

(Yuki)「I see, the differences in environment is somehow too much.」

(Ellis)「Well, they won't die or anything... However, it will be difficult to makes the Elves and the Beastkins that live inside or close to a forest to migrate here.」

Indeed, the green sceneries were important for the curent Japanese people as well.

This may be an unexpected loophole. Because when one is living in a determined place, he or she would attract troubles and may harbor unreasonable stress.

Kaya's opinion was an unexpected find.

Scratching the white board, I filled it up with her opinion.Green (Important).

(Yuki)「Well, Ellis' group, would you continue?」

(Ellis)「Very well. Because of the last opinion, I'm impressed.That a meeting is important.That's why, I'll make my opinion for that purpose as well.」

After that, everyone gathered here stared at Ellis.

(Ellis)「Then, to start with an unpleasant fundamental. What is the general hierarchy of the dungeon? Where would you place the village or the town? Which size will it have? How long would be needed to construct everything? Depending on that, an outdoor hot spring might not be possible. So first of all, I think we need to select which land to use.」

(Everyone)「「「...ah...」」」

The faces of the members who gave their opinion hardened.  
First of all, the place is important. The opinions they said were important, but shouldn't we secure the basic firmly before?

The girls learned “that” only after doing things this way for the first time.  
It may seem childish and amateurish but everyone would act like that at first.  
There's nothing to be ashamed of. Because now you should have hopefully learned it.

However, I've decided on one thing.  
Only toilets and toilet paper would be make inside each household using DP.  
I'm uneasy regarding the hygienic aspect of this Dungeon, if everything would be discharged here, it will become quite nasty.

The noble oath was confirmed once again and we moved onto the latter half of the meeting.

# Chapter 34 - The Meeting (Latter Half)

The things Ellis said, we needed to think about them first. As expected of her, she had said that.

For now, everybody would probably add on the topic.

Well, for the time being we had to choose the land. And write it down.

(Yuki)「Yes. Ellis is right. When you are unsure of the numbers, no matter how ready you are, you may not be ready at all. That will depend upon the arrival of Seraria. And how much help will be decided.」

Then: Immigrations details *ScratchScratch*

(Lutz)「Well, next I want to say that I love onii-san. And I want to say that after we receive the help of Roshuru to some extent, we use the help for the future inhabitants, we can prepare field and hunting grounds. For the sake of our self-sufficient policy. So that it won't be different from their countries. As suggested by Tori-san before, we can hire slaves for the entertainment facilities and then manage it. We can pay them wages, and they can use them to buy themselves back. In addition, I will have you prepare a variety of stores with DP from scratch and create them. Of course, the stores would run with hired slaves as well. I think that we can make the plowing of

land active from the beginning. Rather than having poor fields, we can choose some place beforehand near the village or the town that we could loan at the beginning. In other words, it's a method to make the slaves work for a certain amount of time, while they would be self-sufficient without freeing them immediately. No, what Tori-san said about the field wasn't my idea. Regarding the DP, we should use it efficiently. Then we will receive the support from the country. Besides that, it's important that we have a large sum of money. That's why, I think it's necessary that the country Roshuru provide us with some funds.」

That's right, it was as Lutz said.

I was intending to plow the field from the beginning.

However, we will need new lands for that occasion. We should use the DP as well.

And money was needed...? It's hard.

- Slave employment
- DP use efficiently (Initial investment, including stores and more).
- Money to hire (First plan with the support of Roshuru. Second plan by cashing refined precious metal with DP).

(Ellis)「Lastly, to do as Yuki-san said. If we plan to manage a town or a village. Is it fine to listen to the opinions of the upcoming residents?」

(Yuki)「Oh, if you think that your personal opinion is insufficient and you are aware of that, you can also hear the opinions of more people in the future.」

(Ellis)「Then, I think we should make a place where we can held meetings such as this one. I should be able to somehow hear their opinions.」

- Construction of a meeting place to seek the opinions of the inhabitants and...

(Ellis)「Well, it's a necessity. Because I don't know everything, so for the first time you'll have to lead.」

(Yuki)「Well, how can I say this, that's a bit hard...」

Millie had a somewhat uncomfortable face.

(Yuki)「Just say what you want, you're free to do it. Even if you are wrong, we will correct you. That's one of the aims of this meeting after all.」

(Millie)「Then, I will tell you. I hope to disclose the matters related to the management of the Dungeon to the public.」

The surroundings became murderous in an instant. In a sense, this remark may be regarded as treason against me.

(Yuki)「Please give us your reason. Going along with that, we cannot say for sure yet.」

(Millie)「Yes, the commoners do know that it's a Dungeon but they don't know what is the real meaning for the Dungeon core to disappear. We, because we live here, understood its usefulness from Yuki-san's story. But if each person is self sufficient in the Dungeon, regarding the safety measures for the core...if we don't disclose it, the number of people targeting the core will only

increase.」

What Millie said was true. It was important to think about safety measures for the core against the persons aiming for it.

Only the members here who knew about the Dungeon core could be considered safe. For the others, it would be like Pandora's box.

(Yuki)「What Millie talked about is reasonable. But they won't stop targeting the core only for the disclosed information about it. And that's not a reason why they couldn't be able to live in the Dungeon anymore.」

(Millie)「Yes, therefore. The entertainment facilities that Tori talked about... a function such as the open air bath will stop if the Dungeon core is disrupted. Yes, if it's a river or a water source, it can be successfully dried up. When doing that, the core will become indispensable for the people and they will defend it with their own initiative.」

The inhabitants would defend the core independently because they use its functions.

It would be hard for a rebellion to break down like that, and the core would unlikely be the cause of one.

Because it would become impossible to live here otherwise without it...

Regardless, it would be a good reason for one to take the core hostage. Because the Dungeon would disappear when someone would smash the core .

At the moment, we weren't known by the other countries nor the adventurers, so they weren't a threat yet.

The declaration of Seraria would soon happen about the Holy prayer of Herge and the declaration of this Dungeon's safety.

That's why, there was no reason to act for the time being.

Only the top members of the country knew about me.

- Description of the Dungeon core (Safe for the inhabitants).

(Lutz)「I happen to have something to add regarding Millie's opinion. Is that okay, onii-san?」

(Yuki)「Mmm, was there a problem or something?」

(Lutz)「No, how about using 1/10 of the revenues in DP as expenditure? Each race could hold a meeting where they could freely decide how to use them.

If we do that, not only the dependence for the Dungeon's core will deepen, moreover us representatives will be perceived favorably.

At any rate, DP will answer the people's hope.

Managed by us, it will prove meaningful.

Because the articles are good.」

Lutz added to Millie's opinion. Everyone nodded in agreement to what the young girl said.

- Return a part of the earned DP to the inhabitants(To improve their feelings).

(Millie)「Finally we could add one more entertainment facility. The Dungeon itself can be used to advertise this place, so can we use the Dungeon like a normal one as well? Not with the purpose to take the core, but simply to bring adventurers to take root here because it's a Dungeon.」

It was the opinion of Millie who worked with adventurers before.  
Well, I thought about that one too.

(Yuki)「I also thought of what Millie said as well. I'll speak in depth about it later but to summarize. To everyone... I will pass on you a Dungeon core and I will have you think in turn to make a Dungeon. This dungeon is of medium difficulty. Although it would feel strange to have more than one Dungeon, we can make one adjusted to beginner, with the purpose to train adventurers.」

(Mauve)「Oh!! It looks fun!! Please let me make one!!」

At last, Mauve finally showed a reaction.

(Yuki)「Okay. I understand. That's still for later. Now let's continue the meeting.」

- Bring the adventurers by making a small Dungeon.

With that, Ellis was done talking.It was quite thick.  
She caught me off guard in various blind spots. It's a very important meeting.

(Yuki)「Then, it's the turn of Herge's group? It seems like you wrote a lot too?」

I said so and focused on Herge and the people around her. Millie and Kaya wanted to complain badly but they didn't because they understood the significance of this meeting.

(Herge)「Yes, but first I realized various things at this conference. I wish to express my gratitude for being able to participate. Thank you.」

Herge lowered her head and bowed deeply.

(Herge)「Because I'm a doctor, can I be employed as one inside the Dungeon? I don't doubt of Yuki-san's way of doing things, but even so, it's impossible for an injury to not appear.」

(Yuki)「Yes, it's reasonable. However, as to hire you a healer as a doctor...」

(Herge)「No, even if you don't hire us it's fine. Please use Lulu-sama and me. There is the name of Holy Woman, you can make use of that as well.」

Just after Herge said that, Millie barged in.

(Millie)「Excuse me, but the Holy Woman should be dead right now. If she appears in public, it will hamper the Management of the Dungeon. Could you quickly stop it.」

It was reasonable, if the other party suddenly discovered that the dead were suddenly alive, it would become tedious.

(Ellis)「... I understand what you mean Millie. Wait a little before getting angry. I'm favorable to use Herge-sama and Lulu-sama. Because they are thought to be dead, with little make-up, an hair cut and glasses they will look totally different. And because to treat the injuries, they won't need to use large recovery magic. If they take action, it's needless to say that they will be useful.」

Lutz reacted to what Ellis said.

(Lutz)「Well about that, the point was that that problem will be likely to appear easily. If so, before a problem arises, you can easily deal with it. But the Guardian appointment's protection doesn't allow the use of powers inside the Dungeon.」

(Ellis)「Yes.」

Ellis agreed to what Lutz said.

Hmm, nice bait. I considered that as well but it would depend on the persons themselves...

(Yuki)「I have a way that would permit Herge-sama to manage an hospital... And to treat the injuries there. However, I want to say something to everyone, it's not fail proof.」

(Lulu)「What do you mean? You cannot use magic with the Guardian appointment of Yuki-sama. How is it different?」

Lulu said her doubts.

(Lutz)「Oh~, we cannot force the skill to be aware that the power is safe. This is considered a loophole in the rules. In other words, since we cannot use powers inside the Dungeon...」

(Oriol)「Then we can do it outside. However, we may even get kidnapped while we are asleep.」

(Yuki)「Oriol is correct. That's why I will give everyone a safety ring with the ability to teleport. Its destination is this Banquet hall. However it's not absolute, it's fine to use it before getting kidnapped but won't work when someone get slain. In spite of that, I want you to come back in the village or the town as often as possible, be sure to come back here.」

After I said that, everyone nodded quietly.

(Yuki)「The talk shifted. Herge and Lulu, are you two okay with that?」

(Herge)「Yes.」

(Lulu)「I'm aware and agree.」

*Scratch scratch* • Establishment of a hospital.

(Yuki)「Next is me. As my opinion wasn't talked of before, I will talk about it now. I think that we should organize a squadron for maintaining the security. As per Lutz's idea, we can employ slaves for that purpose.」

This was natural. The number of people should be little, but we needed something like a vigilance unit.

There was the necessity to organize it as well.

- Establishment of a vigilance unit, plan of its activity.

Look like I had nobody for the job. Oriel would do too much.

(Lulu)「That's my time, isn't it? Hence, should I start explaining about the village's segmentation?」

Not everyone could understand what Lulu said. Well, I understand that this opinion was necessary to an extent when managing a Town.

(Yuki)「Yes, as Lulu said. A place for working, a place for living and a place to help and manage the people. Although the towns around here don't seem to be divided like that, there is still the division regarding the nobles, right?」

(Yuki)「Oh, it was like that. Do you mean that a randomly built place will bring problems?」

(Lulu)「Yeah, for example if a noisy bar that opens at night was next to a house, could those who live into that house sleep?」

(Yuki)「Certainly」

(Lulu)「By dividing to a certain degree, it is easier to protect the people. For instance, imagine the place where the inhabitants live, the residents district. If a fire happens during the day, or during the night. Which do you think will do the most damage?」

(Lutz)「It would be the night of course. When everyone is sleeping. Indeed, that's very easy to understand. Are you saying that the people will gather inside a place like a work district, during daytime?」

Everyone seemed to have understood now that Lulu and Lutz answered the questions.

That included the strange places. Like the slums.

(Yuki)「Now we have finished to hear everyone's opinion. After this, let's think of which one to start with. If you want to add something, do it now because it's a pain to add on a subject later.」

After I said that, I moved the white board to the center and showed its content to everyone.

Here was the content of the white board.

Team Labiris said:

- The squared place to play (An open space which can hold a meeting).
- Field (In order to live).
- Blacksmith's workshop (To make necessary goods).
- Place where people live (Houses).

Team Tori said:

- Open air hotspring (entertainment facilities).
- Training center.
- Green (For the beastkins and the elves).

Team Ellis said:

- Choose the land.
- Immigrants details.
- Slave employment.
- DP use efficiently (Initial investment, including stores and more).
- Money to hire (First plan with the support of Roshuru. Second plan by cashing refined precious metals with DP).
- Construction of a meeting place to seek the opinions of the inhabitants.
- Description of the Dungeon core (Safe for the inhabitants).
- Return a part of the earned DP to the inhabitants (To improve their feelings).
- Bring the adventurers by making a small Dungeon.

Team Herge said:

- Establishment of an hospital.
- Establishment of a vigilance unit, plan of its activities.
- Division of the parcels.

In my opinion:

- Establishment of a school (Scholarship progress. Exchanges between residents).
- Never forget to make toilets.
- Next generation of Mobile-suits for me (personal affairs).1) Reference to Gundam Series. If you don't remember in one of the first chapters he said he wanted a mobile-suit or a mobile-weapon

- Negotiations that I go to the outside world and play (Rejected).

Okay, work work...

# Chapter 35 - Melon's Feeling

side: Labiris

(Yuki)「Okay, shall we contact Roshuru now? Because we can't choose the land before receiving the details.」

Yuki to end the conference ordered the results of the meeting by order of priority.

In the end, it seemed that we had to start with selecting the land inside the Dungeon.

After that, Yuki gave a ring to each of us.

(Yuki)「As I said a little while ago, this ring has the ability to teleport. By saying the word『Transfer』, you will instantly move here. If you say the word『Floor』 before saying the word『Transfer』, you will move to the floor you specified. Then please gather at the outside of the Banquet Hall. You will be transferred over this small stage. Try the word『Transfer』」

When Yuki said the word, after wearing the ring, he vanished and suddenly appeared on the stage.

This was a handy tool!

Even after being kidnapped, you can escape unless it was removed.

(Yuki)「Don't worry, you won't overlap in case someone is already here, you will simply shift to the closest location.」

What Yuki said, I didn't understand it really well. Would we become squashed if we teleported at the same location we were at first?

After Yuki said his words... A video appeared with Aslin and me...

Our body disassembled and suddenly grew up on that place, we were assembled together... Burp...

I saw terrible things... Why did you talk about that kind of thing.

(Yuki)「Sorry, sorry. For the strange thing I showed to you.」

Seeing me in a bad mood, he carried me like a princess.1) Princess carry:  
<http://static.zerochan.net/Okiba.ga.Nai!.full.319001.jpg>

... It felt so good. I wondered, what would Lutz feel?

My arms were entangled around his neck.

Although it's hard to throw me away when I did a piggyback, the princess carry wasn't bad as well.

Because my body was small, he could hold me easily with one arm without difficulty.

(Yuki)「Okay everybody, put your ring on. I want everyone to practice this on their own. For the next plan to select the land. You can check about its status inside the Dungeon from this map. Because using DP, the interior of the Dungeon can change anytime.」

Lulu-sama came closer to him when he removed the whiteboard and the map of the Dungeon appeared.

(Ellis)「However, Yuki-san, isn't Seraria-sama aware of that? Isn't there any way to know what the country of Roshuru will send?」

Ellis mentioned her doubts.

Because in this situation, according to the others, we couldn't select the land yet.

(Yuki)「Well, I don't have enough details to reach a conclusion yet. But the rough number was determined. Let's see. The number might fit inside 1 floor to live and 2 floors for the safety. Is a river or wells necessary? Should we make the residential area as one big place? Or should we add some entertainment facilities as well?」

(Lutz)「Haha~, I see. Although I don't understand the scale, I understand the necessities. Will you divide it by floors? I think that that, is a good idea.」

Lutz approved of it.

Yuki always thought of many things at the same time.

There were a lot of meanings I couldn't grasp about the Dungeon. Nevertheless, I was thankful because he always thought out for our concern.

And we will be used to manage the place. I was anxious about that.

To have placed children and women as representatives and managers, as expected of Yuki.

Yuki was aware that he might get despised by the residents. That's why he made us as representatives.

This place will become a place where everyone can share their opinion. That way, it was easier to have us, women and children, for that job.

Those words held another meaning. If someone tried to hurt us, he would probably be smoked out.

By using women and children, even a strong male representative might get discouraged.

In this place, everyone had the same position. We couldn't look down on someone else nor did we need to.

I think it was a really good idea. Although Aslin and Philia were afraid, they only needed to not work as representatives.

I got this. I understood it. They could use Ellis and me for that.

We would bear it with pleasure.

The future that Yuki hopes for and showed us with very promising things. In addition, he helped me with slavery, it's natural for me to help him in return.

However, Yuki was worried about that.

After he freed us from slavery and he treated us so well, it was easy to accept.

When Yuki said that he contrived, I decided to support him deliberately.

He manipulated us.

And I may not be able to speak for Lutz, Ellis or Millie either.

They may indeed have agreed with him.

However, I think that Yuki wants to do very cool stuff, I was convinced and decided to cooperate.

He was a very friendly and very sweet person.

Because I'm smart, he was worried about that.

He was worried about it for a couple of days, then he decided to tell everyone the reason of why he contrived.

But now, this warm feeling we feel... I want to be the only one feeling it.2)  
Yandere route unlocked!

(Yuki)「Uh? Labiris, what's wrong? Are you feeling unwell?」

Unknowingly, I had embraced Yuki really tightly.

(Labiris)「... No.I'm just glad.You already held Aslin and Philia like this, but this is my first time experiencing it.」

(Yuki)「Okay that's good then. But if you're not feeling well, please don't overdo it.」

(Labiris)「Un」3) onomatopoeia for nodding

In the future, there would be a need for negotiations with Aslin and Philia. Should we had turns? Or some rotation system? Since I already had this feeling with the left arm, would I receive a stronger feeling with the dominant right arm? However, I couldn't forget about piggyback riding that easily.I could also cling onto Yuki's head.

When I pushed my breasts on his head, he looked a little pleased with it. And I'm afraid that Aslin and Philia wouldn't be able to substitute for it...

(Yuki)「... Then, should we make three floors? I believe it's a good idea.」

(Ellis)「I understand, if the first floor gets attacked, we can gain time with the second floor too. That way the residents could easily take shelter while the defense system is set in place.」

(Lulu)「Yes, although we can't know the number of persons, with the first and second floor, we can move them more easily.When a large scale attack happens, the distance will prove advantageous.」

(Yuki)「It's fine to look for a good place. Nevertheless, we can't forget about safety.This way, the merchants who want to trade won't complain.」

(Lutz)「Uh huh~, hopefully you thought about that Onii-san.We should consider safety over the accommodations for transportations4) Logistics.Also, with the increase of thieves and monsters, two floors for defense are better than one.Moreover, if the place is safe, no one should complain.」

(Yuki)「It is as you said Lutz.However, the second floor might as well be accommodated with a hotel for those who are in a bad timing at night.」5) I think he means a garrison of sorts for patrols and merchants

(Lutz)「If we do that, someone who can stand on par with ruffians will be needed～.Well, if we keep this in mind I think your previous point is a good idea.」

While I was still thinking of my own things, the talk advanced in various ways.

(Yuki)「Okay, so we can do one floor for defense and one floor with a blank area, is it good?」

(Aslin)「Ano, Onii-chan... I am sorry to interrupt but there is something I want to hear from Yuki-san.」

Aslin called him Onii-chan.

She too was taking a like to Yuki.

But different than a woman, she was liking him as a young girl.

In that case, Yuki-san was fit to become her older brother.

His eyes became round for an instant but shortly after, Yuki showed a warming smile.

(Yuki)「You don't need to apologize Aslin.Even though I'm not especially a great man, you can call me brother as much as you like.Philia, what about you?」

(Philia)「Is that true!? Then I'll call you Nii-sama!! Nii-sama!!」

(Aslin)「Onii-chan is the best!! It's all right!!」

The two had their heads patted. They were really happy.

Everyone stopped the meeting to look at the spectacle.

You were splendid, Aslin and Philia.

I think of you two as angels.

(Herge)「We-well...Aslin-chan, Philia-chan.Can you call me Onee-chan as well?」

Herge jumped on the occasion to ask the two angels.

(Oriel)「Eeh, but...Herger-sama is a Holy Woman...」

(Aslin)「Ano, Oriel-san...」

(Herger)「I am not a Holy Woman anymore... Oriel!! I won't allow any further

interfering!!」

(Oriol)「... I have a problem with that.At least use Ane-sama for Herge-sama...」

Oriel, you were quite struggling, right?

Well, in the end it will be for Aslin and Philia to decide... I don't know what they were thinking.

(Aslin)「He-Herge onee-chan!!」

(Philia)「Herge ane-sama ! !」

(Herge)「Kyaaaa!! Yes, I'm your older sister!! I know what my Ane-sama feels now!!」

Herge-sama lifted Aslin and Philia happily... She was just a moron.

(Yuki)「Well then, did you have anything to ask me Aslin?」

(Aslin)「Uh, yes.Onii-chan, since we are in a Dungeon, why is there a sky? And even night?」

(Yuki)「That's because I consumed DP to create it.I can change the weather freely as well.Well, I limited it to seasons, it was cheaper this way.」

Indeed, the night at the inn was because of the night in the sky.

(Lutz)「Please wait a minute.Onii-san, if we need to change the weather in the future, how much DP will it cost?」

(Yuki)「Let's see, to change the weather around the hotel, it would cost around 5000 DP.」

(Lutz)「Pfft!? Although you have earned 500 000 DP... you find that expensive?」

(Yuki)「Even if it doesn't look expensive at first, for a whole floor it becomes way more expensive.If the area is one floor wide, the ratio will be better, don't you think?」

(Lutz)「Indeed, and the floor which has the farming land should be as wide as possible.A floor like that will benefit more from an expend of 5000 DP.」

(Yuki)「Well, it will be.... Hey wait, if it were a floor with snow only, skiing and snowboarding could be possible and unlimited!! I just noticed a wonderful

thing!! Cheers for one of this Dungeon future leisurees!!」

Yuki was somehow glad for something he found out himself.  
I wonder what are a ski and a snowboard?  
When I'm looking at the images coming from Yuki, what I saw was a wooden plank and snow? After attaching it to his foot, he slid.  
Really, I didn't know that could be used like this.

(Yuki)「And with that, I can also spread the winter olympic games...」

When Yuki said that, a screen suddenly opened in front of him.  
As for what appeared in there...

(Seraria)『Yuki, what a strange face you are doing.The preparations on our side almost ended.We would like to report it to you. Are you happy? Because we didn't meet each other faces for a long time.Honestly, aren't you happy to see this Seraria's face?』

The moment I saw her face, I became annoyed.

## Chapter 36 - Melon & Usagi Vs Peach

We didn't see each other for something like 20 days?

It was 10 days one way to the royal capital. Since the last disturbance in the Royal Capital, the imitation of Herge and the princess Seraria stayed there while Mauve came back.

Meanwhile, I stayed idle, I played and made a lot of DP.

Around 400 Royal guards from the country of Roshuru tried to come and play with me. They were delicious.

Seraria had no particular problems, her cheerfulness in this meeting was fully enough to prove it.

I expected more delay but looks like she had a reasonable amount of charisma and did prepare skillfully.

(Yuki)「Say your report, I want to hear about it.」

(Sera)「.... What's that. After a long absence without seeing each other, aren't you a bit too cold?」

She was troublesome... Like always.

(Yuki)「Not particularly cold. I have been busy, and we need to hear the report. Without that, the Dungeon will not be ready in time. What you did on your side Seraria, was only as hard as breathing. But now starts the real thing.」

(Sera)「Oh, well I suppose you are right. Ok, for the time being, the number of immigrants to the Dungeon will only be slaves and they are about 300. It's not much but you need to understand the circumstances, okay? To suddenly send the refugee inside a Dungeon, the Parliament didn't agree with it. So in the beginning, we can only send slaves.」

(Yuki)「Amongst the slaves, was there any former criminal? Should we stay cautious about them?」

(Sera)「You don't need to worry. The people who were sold are the people who were captured in the previous disturbances. That's why, they are no different than refugees. Now that you know, do you understand from where we

are sending the slaves?』

(Yuki)「... the country of Gai?」

(Sera)『Well, the shops in the streets of the country of Roshuru tried hard to not sell refugees .To enslave the people of their own country, they would shame themselves hard.Nevertheless, many were still sold. They profited from the riot.However, the majority of the people seems to come from the country of Gai. By pushing these refugees onto Yuki , we can sincerely say that our country protected the refugees. Even if you fail, they can simply disappear and we won't quarrel with you.』

Seraria told us her news with a disgusted face.

I liked that part of her.Personally, I would rate Seraria higher than Herge.

(Yuki)「By pushing them onto me, it can reduce the cost necessary to manage them.Each of the things you said seemed like an excuse to me.It's obvious that Roshuru only wants to get rid of the nuisances.Well, anything else?」

(Sera)『If I understand well, I will need to become the ruler of the Dungeon for the external eyes, am I right?』

(Yuki)「Yeah, because I want the official recognition of the country of Roshuru.On the contrary, if someone else than Seraria is the ruler, it will pose a big problem.We will do as scheduled.」

Seraria was significant for this Dungeon.

The official approval of Roshuru.The second Princess agreed on it.Nothing would certify more than this.

With this, when I shoot 「It's safe」, this place will definitely look safe for her country and the others.

In other words, a situation where it can easy to gather people could happen.

Moreover, a lesser noble wouldn't be able to act under the name of Seraria.

It was convenient for our future development.

(Sera)『Well, I will just be the public face right? The real ruler would be Yuki .As for me, I'll have an easy life.The unit under my direct order will guard the Dungeon and escort the slaves.You may use me as an intermediary freely as long as it's reasonable.』

(Yuki)「Really? I appreciate it. Do you trust me?」

(Sera)「What are you saying? Although you did it easily, you drove away the army that attacked the Dungeon.I understand that anything you do, Yuki, isn't useless.」

Seraria was nowhere close to be stupid, she only had a strange policies to fight.

(Yuki)「Is there something else?」

(Sera)「Oh well, I more or less received money and materials from the capital since I am a part of the officials.White gold, I received about 300 of them.Though it seems to be a lot, it's not enough to develop.When you build a common house, you need roughly 1 to 5 pieces. And when you build an aristocratic house it can be from 10 to 40 pieces.Futhermore, that's only when the workers and the materials are close by.The funds aren't sufficient enough to build 300 houses, moreover, we won't receive more financial aid.As for the supplies, we have enough to build around 30 simple houses.It seems to barely be able to hold 300 people.In regards to the food, they sent the minimum that will last 15 days.Because I went alone, I took only 10 days but with the slaves accompanying me this time, we can barely make it in 15 days.When in that place, we can instantly start hunting but we might end up starving.The only good thing is that we won't have to pay tax for five years.」

(Yuki)「That's definitely a story where we might end up dying.You can't ask more from the council any longer, right?」

(Sera)「Well, it seems impossible.However, I thought it was good.By accepting their poor support, after we evolve, it will be fun to see how they will try to meddle with us.Rather, we can even turn down their request when the time comes because of the current situation.What else? Yuki, are you ready? Did you prepare enough food for 300 people?」

No, I am not ready yet... But I can barely manage to prepare the food.That way we heard from Seraria that the support we will receive is lesser than what I expected and we will have to take it into account.Well it would be strange to object, it might decrease the elements as well.」

With the help of Herge, this strong disadvantage might not change either.I

didn't expect that.

(Sera)『What? Was there any other support you needed?』

(Yuki)「... Inside the Dungeon, I thought of a structured organization when money is needed to hire people.How much would cost one month of employment for 300 persons?」

(Sera)『Now I understand.You don't have the intention to make everything with your Dungeon master's ability.Furthermore, Yuki can't be there all the time too.If Yuki were to disappear, the place will become terrible and people won't be able to live there anymore.Eventually, you want the place to become stable and the people to live there on their own.』

(Yuki)「Something like that.So, how much do you think it is?」

(Sera)『Hum~, this might not be helpful but our troops allowance is 3 to 5 gold coins monthly.Low ranking members earn 3 coins.Vice-captains earn 4 coins.Captains earn 5 coins.Didn't you hear that from Herge? For a family of 4 members, one gold coin a month can suffice.』

(Yuki)「I wanted to confirm that.Because if by mistake the price isn't right, it's likely to become a terrible headache.」

(Sera)『It's natural.I understand.I'll check out the general salary.』

(Yuki)「That reminds me, will the salary of the military be paid neatly?」

(Sera)『Obviously, otherwise how could we earn their loyalty. There is a lot of soldiers which raise and support their family with their wage as well.It'll be a written arrangement about how much the wages should be sent to the Dungeon.Including other informations.Well, I guess unless they would need it inside the Dungeon, the pay will be directly send to their families.Because they will not be troubled with their meals.』

Oh, heh~? Isn't that a nice chance to make some foreign money?

(Yuki)「Hey wait a moment.Please make sure that a part of the funds will reach the unit at least.」

(Sera)『What do you mean? There's no shop inside the Dungeon right?』

(Yuki)「Not yet, but we will make one in the future you know? As long as I

have the DP, I can make whatever I like.The rinse and shampoo that pleased Seraria, I plan to sell them inside the Dungeon.」

(Sera)『What's that!? If it's serious, I will carry a lot of money.But that's not the only thing is it?』

(Yuki)「I will make an employment system.Commodities such as consumable goods like clothing and food will be sold.」

(Sera)『... In that case, until we farm or hunt, we won't risk starvation.But is that good? After that, counterfeit rinse, shampoo or even soap might appear in every direction, right?』

(Yuki)「It will not be immediate.Not unless people start to gather and it becomes this place's specialty.Well, I want to leave 2 to 3 months for the slaves to get used to their new life here before using the goods...」

(Sera)『Well, it's not necessary to conceal that from start.Unlike this skill 『call』, information is either transmited by humans or horses.I will forbid my unit to speak about it.When you decide that the time is right, only then will I lift the ban.』

Humans can't remain silent forever, rumors would naturally spread.Yet, this time it's unlikely that someone won't be able to remain silent and unexpectedly spoke...

That's because Seraria had a high enough standing with her guards.

(Yuki)「Oh well, Seraria, we want to make an adventurer guild inside this Dungeon, do you think if anything is required to do so?」

(Sera)『Do you have a death wish?』

(Yuki)「No no, it has been decided that we will manage the Dungeon and open it freely.Therefore, I will make a Dungeon located inside the Dungeon in order to train beginner adventurers.That will help to gather people here.」

(Sera)『Oh yes? I think it's interesting.I also want to make the Dungeon and blend it.This way, I'll get to know the talented prople from the guild.When I will explain the previous story about training, they will definitely be attracted from it.』

Seraria muttered that she was looking forward to the fun in making the Dungeon or something.

... Let's just hope that she doesn't fill the map with powerful demons.

(Yuki)「Since I need to take various things into consideration, please explain in detail how many people will come to this place. The reason is because I need to prepare their living place.」

(Sera)「Oh, I'm sorry. Let me see... It's quite hard to use the parchment... I'm missing the copy paper... Ah I got it I got it. 325 people. My unit amounts to 54. That's 379 people in total. I think it may grow a bit but not more than 400 people. Because we don't have the supplies.」

(Yuki)「Okay. We will build houses assuming that 400 persons are coming.」

When I looked to the side, Lutz and Ellis were writing the detail of our conversation to the copy paper.

Could well educated children like this be found in modern Japan nowadays?

(Yuki)「Then, we will wait for your arrival, Seraria. We will contact you when the houses are ready.」

(Sera)「At that time, I'll be thankful. Knowing that there is a safe roof waiting for you feels different. It will take around 5 days of time to get everything ready.」

(Labiris)「...Hey Yuki, are we finally starting?」

(Yuki)「Yes Labiris, now we will become very busy.」

Since the talk with Seraria started, Labiris butted in for the first time.

Well, since the story was roughly settled, I was waiting for it.

Whilst I was stroking the head of Labiris, Seraria looked curiously from the other side of the monitor.

(Sera)「By the way, what happened with this little girl?」

(Yuki)「She's one of the kids bought by Mauve and his group... Oh, that's right Seraria!! Is there any children amongst the gathered people?」

(Sera)「Eh? Not particular, why? Do you have this kind of hobby? That explains why you didn't react when you took a bath with me.」

Labiris came and strongly hugged me. I felt that something was wrong, but it might just be my imagination.

(Yuki)「No, I don't have this kind of hobby. Aside from that, don't you like Labiris? Isn't she cute?」

(Labiris)「... Yuki, it's embarrassing.」

I took Labiris and carried her towards the screen.

(Sera)「... She has unnaturally big breasts... Well, what was with the children again? By all means, I want to lessen the burden of this long journey by travelling without them.」

(Yuki)「A place without children would not mean much, right?」

(Sera)「That's..... Indeed, if you want to raise the next generation.」

(Yuki)「Something like that. Ah, and I want women whenever is possible.」

(Sera)「Why is that?」

(Yuki)「Between a man and a woman, which would be despised the most?」

(Sera)「It's a woman.... To make them at the top with high responsibilities, do you want to remove the discrimination within the residents? Are the children a part of this too?」

(Yuki)「Well, they are a part of this. It has a deeper meaning than that Seraria.」

(Labiris)「... Seraria-sama. Yuki's legal wife is Labiris! YAY!! Way to go girl!! Nice to meet you, But do not dare to get a hand on Yuki.」

The air froze.

What is this? I thought that the current conversation had nothing to do with Seraria. However...

(Sera)「Huh!?!」

Seraria, dumbfounded, hadn't understand the meaning of those words.

(Lutz)「Labiris-chan, you're hazy~, you forgot about me, I'm Onii-san's second wife. Seraria-sama, I'm pleased to make your acquaintance. Unless especially stated otherwise by him, you can't put your hands on Onii-san, okay?」

Lutz broke into the conversation and a feeling of anger appeared on Seraria's face.

(Sera)『At a time like this, you don't use honorifics and don't respect the social standing?』2) She is referring to: Royal 2nd Princess Seraria Rushoru-sama

(Yuki)「Calm down...」

(Lutz)「That way you could selfishly involve Yuki? Seraria-sama, your breasts are tiny.」

(Sera)『What!? Speaking of the size of breast, yours aren't big either!! My breast became excellent peaches with practicing military...』

(Lutz)「Unless used, they are not worth anything Seraria-sama.Can you see our Onii-san using them?」

(Sera)『... It's not like that.After all, I'm the second princess.Unless a man is stronger than me, I won't recognize him...』

Oh, she became timid.

(Lutz)「Well, this war princess Seraria-sama might be a bit too strong to meet someone acknowledgeable for her... Did you consider lowering your standards?」

Lutz followed on Seraria's sinking.

(Labiris)「... I said too much.Seraria-sama,Yuki cherishes everyone, even though he can't be splited.」

Labiris also followed on Seraria's sinking.

... The split, was I sold?

(Sera)『Really!? I wasn't confident anymore since Yuki didn't react when I entered the bath with him... I couldn't stop thinking about that!!』

(Lutz)「Oh~, I understand.Onii-san's ability to hold his weird thoughts is troublesome~」

(Sera)『That, although I like Yuki, it doesn't mean that I want him as my husband!!』

(Labiris)「... Difficult personality.It's all right.I want you to help us and enter

the bath along with us and Yuki.」

(Sera)『If it can't be helped!! I'll join together!! Look forward to it, Yuki!!』

With that, the screen turned off.

... uh? Although we gathered for an important story... Wasn't something wrong?

# Chapter 37 - The Importance Of One's Own Room.

side: Millie

After the conference with Seraria-sama ended, Yuki-san turned toward us.

(Yuki)「Well, I want you to listen, because everyone's schedule is decided. I intend to prepare for a place where 400 people can live. What kind of home do you think will do the job?」

Without hesitation, as always; he who respect us, was seeking our cooperation.

With outstanding knowledge and abilities beyond humans, as a Dungeon Master, he fought against nobility for our sake.

Along with that, he seemed to have saved the holy women.

Originally, because we were slaves, we were destined to be used as playthings until we met our end.

However, after I was bought by Mauve-san's party and brought to Yuki-san, I was able to see a new age.

When he said 「Nothing has begun, there's still more.」 I was just smiling wryly.

However, soon I understood easily. If the future he showed to us was to happen, unfortunate things like the ones which happened to us would decrease in the world.

It wouldn't be as beautiful as becoming zero. But nonetheless, it would decrease. 1) Zero was written in Katakana, as if it was a foreign word.

What he said wasn't irresponsible. Unlike someone who wouldn't have his foot onto the ground. What he said felt real before our eyes.

Because of his power as a Dungeon Master, I believe that even zero is possible. Although he had power, he didn't present himself as someone arrogant, nor did he showed up as someone self-righteous. For the success of his plan, he asked for our cooperation.

... Honestly, even if Yuki-san said that he wanted to make an army and he wanted to annex the country Gai, I would follow him.

That's how much I trusted him. Even though the time I spent with him has been little.

... Was it fate?

For the time being, he thought that neither dictatorship nor monarchy was desirable. Though what we want to do for now is to bear his children and raise an heir.

Because Labiris and Lutz are on the offensive, for now, I'm patiently waiting.

... Well, even though I wasn't for it, Lulu-sama has been forced to conceive Yuki-san's child. 2) Remember the half-joke in the bedroom

I had a personal grudge. But regardless of that, she had a superior ability for this matter.

That's why I accepted it. For the sake of raising a talented child, Lulu-sama will be used as a sexual tool. But please, do me as well. 3) Yuki you lucky bastard!

I pray for the monogamy concept of Yuki-san to disappear, this way, it will be a good opportunity for all of us to become pregnant.

All the requirements for Lulu-sama were written on a paper. Seems like she will be able to bear children. But I will be the one to do it first and bear Yuki-san's children. Even if we are sheltering this harmful animal, I was still thinking of murdering her.

You should only attend to Yuki-san's sexual need at night instead of coming to this place.

Even if you can make a child, we will raise him. You don't have to worry because the blood of Yuki-san will be flowing inside him, it's important to raise the child diligently. Lulu-sama won't have to worry about anything ok? However, I would like it if you could stay inside a room for the rest of your life.

While I was thinking about this dark things, Yuki-san asked me.

(Yuki)「...e, cause Lutz can do it in seven days, What kind of house would you like Millie?」

(Millie)「Me? When I was working at the guild, I shared a room with three coworkers. Although I had my family's house too, it wasn't that much different.」

(Yuki)「Did you three had separate rooms?」

(Millie)「No, only very wealthy merchants, nobles or royalty can have the

privilege to own their own room.」

Yuki-san had a hard time thinking.

(Millie)「Ellis, what is difficult for Yuki-san?」

Because I was absent minded and didn't listen to what Yuki-san said, I asked Ellis instead.

(Ellis)「What is... Oh, Herge-sama? Lulu-sama? I understand that you didn't listen, but Yuki-san's talk is important, okay?」

(Millie)「Sorry, I'll be careful. Then, about Yuki-san?」

(Ellis)「The talk was about whether the slaves, the escort, and the guards should have their personal rooms. To say more specifically, they won't probably have their family with them. That's why he is thinking to give one room per person.」

(Millie)「Huh, no matter how much Yuki-san is gentle... The slaves shouldn't push their luck...」

It was forbidden for Yuki-san to convey his generosity to the upcoming slaves. We should be the only ones to embrace Yuki-san with our chest. We must hide him.

Therefore, we must use the name of Dungeon Master. We needed to establish respect and fear into the slaves.

The management of the slaves. We are still unskilful, but we were still arranged as representatives.

To have one's own room is a privilege only received by those with higher status. If you give such a treatment to the slaves, they won't think like slaves anymore. Instead, they probably wouldn't listen to you.

(Millie)「In the first place, weren't the slaves used as a pretext to hire them? Plus, don't we need them to eliminate discrimination? Will you be troubled if the slaves suddenly brought refugees?」

(Lutz)「Honestly, I understand ~... Well, assuming refugees will come here, won't it become something usual in the future?」

(Ellis)「That's right. The slaves are the lowest of this continent hierarchy. That

way, if we give one room to each slave, wouldn't it be a good thing to remove that sense of discrimination?」

(Lutz)「But I think, if we use the employment system to handle the slaves, won't it be enough to remove the sense of discrimination onii-san?」

As Lutz said, the slaves couldn't even think how paradise-like is this place. Even if they don't have their private room, there is a place to sleep and even meals. Even if they were slaves, they will be welcomed here. Usually, they sleep curled on the floor and ate the leftovers. It's normal for a slave.

(Millie)「Yuki-san, The slaves can just live like us, together in a mass. Why not create a big room for 400 people? Or 100 people? 50? Don't you think it's good? However, what does a private room even mean?」

(Yuki)「Oh, I see. You don't understand the meaning behind a private room... That's it, follow me.」

After he said that, Yuki-san walked away holding Labiris-chan like a mother. To be honest, I envied Labiris-chan, Aslin and Philia.

(Lutz)「Oh! Isn't this the place with the Dungeon core?」

Lutz said so. Certainly, this should be the place with the Dungeon core. When we came here at first, we received the strict order to not touch anything in this room. Though I didn't understand the meaning beforehand, now I don't think that I would touch the Dungeon core.

(Yuki)「Yes, it's a Dummy. Anyway, come over here.」

(Lutz)「Haa!? Onii-san, is this core fake!?」

(Yuki)「Well, I doubt this place would be so easy to find. It's a real core but it's irrelevant to this Dungeon tough.」

(Lutz)「... Real but not real, it's unusual...」

Lutz passed to an amazed state from a surprised state.... She really is a shrewd person.

When the core was put on the wall, a door appeared on its left.

... This room was already like a hidden room...And there's another room hidden too?

I mean, would an adventure be able to reach this place?

As far as I heard, this Dungeon had more brutal traps than any other Dungeon.

(Yuki)「Yes. This is my private room with my personal things.Welcome in.」

Yuki-san opened the door and invited us inside.

(Girls)「Yes, excuse me for intruding.」

We said that while passing the door.

(Yuki)「Ah, please take off your shoes there.It's the same as the inn.Please wear the slippers.」

In that way, we were let inside Yuki-san's room.

... It was beyond our understanding.

(Millie)「Heh, ah, ah... This place...」

(Lutz)「What, well, is onii-san's private room a copy of the hotel?

Though the area is narrower than the banquet hall, how can I say this, it's beautiful.

I have looked at various rooms from noble purveyors. They were beautiful as well but this place is different.

What to say about our baptism. None of the furnitures were luxurious, but they had a lean shape.

There was a beautiful desk used for writing on paper. The same screen as the one which appears when we use 「Call」 is here with something strange attached on it.

When we turned our eyes to the wall, we could see colorful bookshelves with many books.

For decoration, there was also a drawn landscape and the map of the Dungeon displayed at the hall in a corner of the room.

(Yuki)「Well, even if there are various unusual things, please sit. I guess 15 guests are too many ... 8 can sit on the sofa.The table has enough chairs for 8 people.For the remaining, I'm sorry but you'll have to sit on the floor.... It might be a good thing to expand this room.」

Although we were looking at the various things, we were urged to sit on the sofa by Yuki-san.

The youngsters waited for Yuki-san and followed him.

(Yuki)「That reminds me, does any of you can't drink milk?」

Nobody said no.

(Yuki)「Well, that's good. Do you want to try cocoa4) Hot chocolate? 」

“Cocoa”? What is that?

After waiting for a little while, Labiris and the others took the glasses places on the tray.

(Yuki)「Are you alright?」

(Aslin)「Please sit onii-chan!! Aslin wants to be useful!!」

(Philia)「Desu!!」

(Labiris)「... Yuki, give up.」5) She ended her sentence with a cute “ne” but I didn't know how to put it into context

For a little moment, I became insecure but we received “cocoa”? When I got a hold of the cup,

I was surprised... The content was a brown and warm water... Mud water?

(Yuki)「Regardless of its look, try to drink it.It's not poisonous.」

Because Yuki-san said that, I tried to put it up to my mouth...

(Millie)「Delicious...!?」

(Lutz)「Fua!? Wha-what is this!? It's terribly delicious!? Does it contain sugar!?」

While the others made round eyes, Lutz and me were the only one expressing ourselves. I took yet another mouthful of cocoa.

(Yuki)「Oh, perhaps sugar is a luxury?」

(Millie)「Of course it is...」

(Lutz)「Yes」

We didn't know how deep Yuki-san was.6) As in mysterious

(Lutz)「O-onii-san.For what reason have you brought us here? Was it because you wanted us to drink cocoa?」

(Yuki)「Well, it's a part of the reason.What did you think when you saw this room?」

(Lutz)「How can I say it, this room is very much like you, onii-san.」

This was Lutz-san answer.I thought the same.Although it's not overly luxurious, it's a clean and friendly place.

Each furniture was attractive. Like this glass, it was more than simply something you use.

Strangely, this room gave a good feeling.

(Yuki)「Really? When I have a private room, I can fill it with my things and use it for my hobbies. Millie, do you mind if I hold you like a Princess for a bit?」

(Millie)「Eh? Eh?」

(Yuki)「The time is short, so I will apologize later if you want.」

Before I could even answer, I was already carried by Yuki-san.  
Ah...happiness.

In such a way that I stood dreamy. But when I heard him congratulate me, something like a 「Kasha」<sup>7)</sup>Sound of a camera could be heard.

(Yuki)「Thank you.Are you ok? If it's unpleasant, I'm sorry?」

(Millie)「No!! You're welcome at any time!!」

After he released me, I think that my cheeks were dyed red.  
Yuki-san was operating his finger with something on the desk? He's done.  
The box under the desk spat out something like a paper.<sup>8)</sup> A printer

(Yuki)「Here, Millie.This is called a photo, you take them when you find something or someone beautiful.」

Saying so, he showed me the photo.

(Millie)「Ah, thi-this is Yuki-san and me!?!」

What Yuki-san and me did a bit earlier was reflected in the picture.  
As I looked at the picture where time seemed frozen, I could see my nervous

looking face and Yuki-san's calming one.

(Lutz)「Once again, this is amazing～」

(Labiris)「... I'm jealous. I want a photo too.」

Everyone looked at the photo, some said their admirations while others expressed their wishes.

(Yuki)「Millie, I want to hear from you, what did you think about this room. Did you feel something different?」

(Millie)「Yes.」

(Yuki)「As for this, you can secretly display this in your private room. Or rather, do you want everyone to see it?」

(Millie)「... I don't want to show it to someone who isn't my friend.」

Because I was fascinated by the picture, I lost to Yuki-san.  
It was a shame, but I was happy. A picture of us... It's wonderful!!

(Yuki)「Inside a private room, one can decorate it with photos. After collecting materials for his hobby as well, won't his salary circulate inside the Dungeon?」

(Lutz)「Oh, that's the idea? If we want to keep them employed, and as we are supplying them with the money, it will most likely dry up otherwise. Now, I'm convinced as for the utility of a private room.」

(Yuki)「Millie, what about you?」

(Millie)「I don't have any objection!! Later, I want to receive more of this photos! I want a private room too!!」

(Yuki)「No, having more than one of the same photo is useless, well it can't be helped... There are private rooms for you all in the hotel. I was going to have you live in private rooms from the beginning. When we return to the hotel, you can choose which room is good for you.」

After that, Yuki-san took a picture with everyone. They will display their photos in their own rooms.  
A photo taken with everyone was used as a decoration at the front door of the inn.

Still, I think that Yuki-san's goal is really good.  
I'd do anything for you.  
Therefore, I pray that this sweet face of yours doesn't get distorted by something...

Of course, after that was the bookshelf of Yuki-san. Nude women were reflected in the large book. Before we could judge his preference, he took the book back and threw it away.  
Yuki-san's face was distorted but that's not considered with my previous statement.

# Chapter 38 - The Wolf Girl Is Participating As Well.

side : Tori

How do you do? It's Tori. I intend to advance the story about the Dungeon's management from my point of view this time. To follow with my talk, what hanged next on Yuki-san's agenda was the making of the residents room. First, the one for Lutz-san, Ellis-san and Millie-san. Next would be us, the beastkins's turn. The children couldn't participate.

I wanted to thank Yuki-san, I tried to help1) the word used by the author can mean help/maid him. However, I'm not too smart and this was one of my weaks points.

My proudness was how well I was able to move my body.

(Riel)「Hey, Tori. Won't we say anything? I was thinking, it's baffling to not be of use to Yuki-san」

The girl from the cat tribe Riel came to consult me.  
It seems, she wanted to help Yuki-san in her own way.

(Tori)「Well ... But, Ellis-san and the girls shared a lot of things... Can we find any idea to share?」

(Riel)「... Even while my arms aren't strong, I still want to use them and help. Not only to Yuki, I want to help Ellis and the others as well.

What Riel said, I understood it well. Yuki-san said that someone always had something he/she was good with. Even we could find a place where we could be useful. Furthermore, as long as we tried our best, even though we were not useful right now, we could still have our place here no matter what.

I said that, but we could still sit at the conference and share our opinions. That's why, because we couldn't help at a time like this, it was frustrating.

(Riel)「Hey, Kaya, you don't have any ideas too?」

It was Riel, she called out to Kaya who was relaxing while drinking cocoa until

now.

Kaya was from the fox tribe. Unlike Riel and me, she was good at handling black magic, with her abilities, she was able to take part in wars with pride. It was a good idea to hear an opinion from a different point of view.

(Kaya)「... No. Soon we will have our private rooms, that will settle the matter. With my poor mouth, I'm not able to intervene with their talks.

Kaya seemed to be not good at talking. She was listening to everything that was said, but she had the idea that she shouldn't intervene.

(Riel)「Kaya, it's not good—. I think that a private room is a good thing but don't you want to live with everyone? No need to get embarrassed. Especially you, Tori and Kaya since you are from beast tribes. Even if your habits are a bit different, they will understand, don't you agree?」

(Kaya)「... I think the same. However, a private room is certainly more useful. My room, I want to decorate it with photos.... And treasures」

I understood what Riel was saying. Actually, we have spent our time together so far. No one was complaining.

But as Kaya said. The pictures gotten earlier from Yuki-san, I want to decorate my room with them.

Me and Yuki-san. Me, Tori and Riel. Me and everyone. Me and Aslin...

They were many, but it would be annoying to display them in a room with everyone.

At any rate, I had 10 photos. If someone threw them away by mistake, I would get angry and squash that person like a pulp.

(Riel)「We~ll, because we have things we want to keep and that can only be done inside a private room, should we favoritize one? The person who could come here for the first time will not be able to see what we are proud of...」

(Kaya)「... As Yuki said. For now, we can individually do some shopping and try our private rooms」

It seemed too difficult for Riel to give up the room with everyone.

Huh? Speaking of Aslin and the two children, will they sleep inside their own private room too?

(Tori)「Err, Yuki-San, I have something to tell you」

(Yuki)「Alright, do you have any good idea?」

(Tori)「No, you said that you would give us a private room, and I'm looking forward to it. Will you give one as well for Aslin and the children?」

(Yuki)「Oh, naturally. I will give one for everyone, including Aslin and the two children」

(Tori)「In that case, you won't sleep together with Aslin and the other two anymore?」

(Yuki)「Since I have a private room as well. There is no reason to sleep together anymore right?」

After Yuki-san said that, as he turned to the other way, Aslin's group stiffened.

(Aslin)「Th-that can't be!! Onii-chan, you should ask us first!!」

(Philia)「Nii-sama, why would we want one!! We don't want to be excluded, it is really sad!!」

(Labiris)「... Uh uh, Yuki you'd better pay attention at the way you speak a bit more」

Aslin and Philia began crying. They were clinging to Yuki-san.

(Yuki)「Sorry, sorry. Now, stop crying. There is nothing wrong with sleeping in a separate room. Besides, the fact that we all have our private rooms doesn't mean you won't be able to come to my room.

Yuki-san after saying that stroked Aslin and Philia's head in order to calm them down.

(Tori)「We-well, I understand your point but I expect you to hear me for a minute. Like the two little girls said, I believe that it is not necessary for them to have their own private room. Until now you were together so it should remain like that」

When I talked to Yuki-san, Ellis-san came to a conclusion and she began talking.

(Ellis)「... Indeed, what Tori said is justifiable. We agreed upon the benefits of a private room but we didn't disregard shared rooms. How about giving a private room only to those who wish for one?」

(Yuki)「Well it's most likely Aslin's and the two children's plan. In addition, a place to live together must be prepared」

(Lutz)「If that's the case, Onii-san. When we get our private rooms, should we rent them? Living together with the people you like and working for it make sense, I hope we can all be like a big family. Well, I've decided to completely separate my work and the family」

(Yuki)「Let's see. I'm okay with Lutz's method. The private rooms will be installed as a goal and we will begin with a joint room first. It's good if you could get used to learn about the rules and life here. If someone wants to stay in the joint room, they can. But if someone decides to live in a private room, then that person will become an example for the upcoming residents」

Ellis-san and Lutz-san neatly organized my story and told it. This meeting, I was really appreciating it. Even the opinion of someone uneducated like me was taken into account.

(Lutz)「Onii-san. To follow that idea, rather than building 300 houses for 300 people, why don't we make a mix of joint rooms and private rooms that can accommodate up to 1000 people?」

(Yuki)「In that case, we need to be careful. A large amount of 300 people is not an easy task to manage. But in contrary, thanks to the cleaning facilities it might be easier. Tori, for sharing your opinion, thank you. You have collaborated with everyone」

Yuki-san said those words to me and patted my head. I wasn't a child like the three young girls but Yuki-san did it whatsoever. That couldn't be.

Huh... It's my ear... Kiyuuuu~n

Which reminded me, not too long ago Aslin and her two friends cried. Were they okay?

The crying voices couldn't be heard anymore.

(Labiris)「... Aslin, Philia. If you listen to what I say, you can sleep alongside Yuki anytime」

(Aslin)「Is it true Labiris-chan!?!」

(Philia)「Together with Nii-sama!!」

Oh, it was Labiris who appeased the two girls.

(Labiris)「There is a one sure hit method... And that is, you must become Yuki's wife!! You'll always remain together if you can give birth to Yuki's child!!」

(Aslin)「I will!!! I will marry Onii-chan!!」

(Philia)「I'll bear the child of Nii-sama too!!」

(Labiris)「A good answer. If you have the desire to do so, you will definitely become a good wife」

Labiris chuckled after bringing this topic.

Over and over, the thought that Labiris was wicked reached me.

(Yuki)「Wait, Labiris. What are you teaching to Aslin and Philia!? They are kids who know nothing yet...」

(Aslin)「Please don't look down on me Onii-chan!! I know how babies are made!! Oni-chan's peepee has to 「Zukyun!2)Thrusting 」 and then 「Bakyun!3)Pulling」 right?!」4) She used sounds for the description

(Philia)「Then, after Nii-sama's peepee has done 「Zukyun!」and then 「Dokan!5) Sound for explosion, you get it 」 right?!」

(Yuki)「Why do you know such things!?!」

(Labiris)「... Yuki, a slave girl is usually used for that, they know it even when they're young. Did you know? They receive training in order to not disappoint their buyers」

(Yuki)「Gya!! Why does this awful story sounds so real?」

Yuki-san's innocent behavior seemed strange, or perhaps I should say it was beautiful.

Why would I say that? Because it was about us, slaves.

(Lutz)「Onii-san, stop wasting time. You must quickly summarize Tori's opinion

and we must decide together with everyone a plan about the housing. There's still many things to do before Seraria-sama's arrival in 15 days. Please don't fail on the first stage, the construction of the buildings」

(Yuki)「Let's see. I understand that Aslin and the other two are trying hard in order to meet their hopes. But for now we need to put that aside and get ready for the migrants ahead of their arrival」

(Yuki)「Huh? I agree with what Ellis said about Aslin and Philia」

(Labiris)「...? It can't be helped if you want to deny them, but are you sure? Those two are motivated, won't they force themselves upon Yuki-san in the future?」

(Lutz)「Look, Onii-san. Leave this place for the time being and inspect the three floors. There's at least 3 days before we have to start building and we still need to fix various things in between」

Hence Yuki-san was being pulled by Lutz and Ellis-san.  
We left the room, following behind them.

(Riel)「Hooray Tori. We too were useful!!」

(Kaya)「...Amazing Tori」

(Tori)「Huh? You two came with many ideas that helped me think. Please take care of me from now on」

Well, there was still time for us to take our turns before Yuki-san reaches his goal.

Hence started the real thing.

We shall produce a happy place as Yuki-san wishes.

# Chapter 39 - The Primary And The Second Holy Woman

side : Lulu

I was now inside Yuki-sama's room, at the inn.

Women need to meet some requirements before they can bear children.

But Aslin-chan and Philia-chan were also here.

What's more, there was Labiris and Lutz.

(Yuki)「Rahh, so persistent. You are putting on a face. How did we come to this conclusion?」

It was needless to say; Yuki-sama met those requirements.

(Lulu)「No, Yuki-sama. You're misunderstanding.」

(Yuki)「What are you saying?」

(Lulu)「Labiris and Lutz had convinced the assembly. However, Millie and Kaya... If you leave it at that, they will both probably kill me. So even if you try to stop me, it's useless. They are not in love with you. It's simply a better alternative. It's a substitute for their lost happiness. They need you to smear me instead of them. If we don't do it, they will break...」

After I said that, Yuki-san 1) Yup she used "San" instead of "Sama" bore a serious expression.

Naturally. He was optimistic.

A person's heart isn't as simple as that. Even at the time when they just became released from slavery, it didn't mean someone would do it when told.

In the end, Yuki-sama said it himself. They were free.

In the current situation, the new cooperation system of this Dungeon will break. Led by the Foreign me and followed by Millie and Kaya.

(Yuki)「That, huh? Is it necessary to make a child with Lulu to convince Millie and Kaya?」

(Lulu)「Yes, they wish for my dignity as a human to be trampled.」

(Yuki)「My role is to defile, huh~. But as for me, I want only to embrace my favorite women.」

When he said that, Yuki-sama took Labiris and Lutz-san in his embrace; each with one of his arm.

How to explain... It was a strange sight.

The Yuki-sama was usually shedding as much kindness as possible for them. But not today, he was rather aggressive.

(Labiris)「...Lulu-sama is suitable enough... However, Yuki can't make a child for such reason」

(Lutz)「Let's see~.It's the natural way for onii-san to do things. It made sense. It was natural to take down the top of the Holy Country Ritea.」

At first, I couldn't understand what those two were saying.

But my head began to understand bit by bit.

Why would they say something like that now?

And why should I not feel insulted?

Regardless, for me, it was the only road.

To bring peace for everybody here, I was going to dedicate my body to Yuki-sama!!

(Labiris)「... It was done with Yuki's interest in mind. Lulu-sama, he'll give you an explanation, but we need to go out first.」

(Lutz)「You can relax your thoughts onii-san. I'll leave with Aslin-chan and Philia-chan. 」

Both left Yuki-sama's arm with reluctance. They carried Aslin and Philia and went outside of the room.

(Lulu)「... Yuki-sama, can you please share some explanations?」

We were now the two of us in the room. Silence stirred for a while. But before I could, Yuki-sama's spoke and broke the silence.

(Yuki)「You came here, but you have yet to understand... And I want you to stop with the 「Sama」. It's not the place to be formal nor the place to make love. After all, you don't bear feelings, and it was merely a speech.」

Yuki...San, my heart was uneasy, and my mind shook as the thought that he was unlikely to rape me.

Why? My body should be that of a superior as a woman.

My appearance too and my knowledge...

(Lulu)「What!! I have my honor!! But you've denied me so much, what is so fun about it! Will you let Millie and the other kill me just like that!! I Don't want to die!! I hate the thought of dying!! Is it not good to attend you and stay alive!? Look here. My chest is big. Please rub them as you like!! ... Please, I beg you. Let me be pregnant with your child!」

I was getting naked in front of his eyes to appeal him.

It's already been four days since the agreement with Millie-san and the others. The talk about Seraria-sama is over. The migrants will come soon, the construction of their houses is about to end. The building of other facilities will start shortly.

Until this day, I had yet to receive Yuki-san's semen... No. Not even once did he direct his sexual desire towards me.

At this rate, Millie-san will absolutely kill me. Even if it's not directly... I'll get kicked out of this place...

(Yuki)「Lulu, what do you intend to do from now on? More specifically, what do you want to live for? I can say that living for the sake of bearing my child is meaningless. Can you understand?」

(Lulu)「What kind... thing you are saying? I, Yuki... san. To make children, safety... ...」2) She talks in an unsteady way

(Yuki)「That's only for now. Millie and the others are still not entirely convinced. But that's only temporary. What? Do you think, if you bear my child, it will improve your relation with them?」

(Lulu)「That's... ...」

It can't be possible. An easy method to improve things didn't exist. My only choice was to become pregnant with him, even if he didn't like it.

(Yuki)「...Haa, Lulu. You are not a poor worker from any temple. Your true ability is real.」

(Lulu)「What you!! How much! How much will you pull this up!! Do you think I wanted this title as the Holy Woman!?!」

(Yuki)「Oh, but the truth is, you have the ability」

(Lulu)「... ... What are you trying to say.」

(Yuki)「Lulu, are you stripping on purpose? It's quite painful for me down here. The unskillful me might bring you down to your knee, make you shed blood and make you cry like a child.」

(Lulu)「Are you saying that I am only a child that have yet to bleed from her skin? What do you know!! Do you think, I compare to such a thing!! My faction threw me away from my homeland, sword pointing towards my back!! Why did I suffer such experience!! Please help me!! Nee!! Save me!!」

My eyes were filled with tears. They could not stop falling.  
Whatever I had kept inside my mind, I spat them to Yuki-san.

(Yuki)「It's the same. And it made sense. To cry and then stand up is what you should expect from a child. It can be considered as an excellent result. In the first place, you can see a meaning behind the comparison between you and a child. Lulu you should know, the thing you need to do is not to bear my child. I mean, you have to stand on your own. Did Herge need someone to tell her something before she starts acting? Lulu, you probably didn't know. But Herge already met Millie when she was hurt. What did you think Herge did at that time? She bowed and she said「I am sorry」. It's not so simple; not anyone can do that. It's a tricky thing to do, considered we are talking about Herge. And she took the matter with Seraria very seriously.」

Herge did such a thing to ... ..However, I already took responsibility and accepted Millie's request.

(Yuki)「You are irresponsible. You should stop acting like the heroine of a tragedy. No, isn't the heroine of a tragedy still better than you? It's because of this play that you, a princess, came to shake my hand for help.」

(Lulu)「... To apologize... It may not go like with Herge-sama and I'm not as courageous... 」

(Yuki)「I wonder, Lulu is not Herge. And you seem to misunderstand. It didn't

mean that Millie allowed Herge. Were you aware of that? Herge lowered her head in desperation to Millie and the others at the last meeting.」

(Lulu)「Are you saying that Herge was making Atonement?」

(Yuki)「... .. Thank you for the pessimistic answer. You may as well go and ask Herge about the correct answer. You might even reach the true answer this way.」

(Lulu)「..... What do you want to say? I'm not Herge-sama!! There is no way I can apologize. It's too scary!! I can be thrown away anytime if I offend them!!」

(Yuki)「That's the reason why I told you to not act as the heroine of a tragedy. Lulu you already have the same role as Millie Labiris or Kaya, you are all part of the same cup. But everyone isn't playing like the heroine of a tragedy. Millie in particular should be crying. But not you. Do you know why?」

(Lulu)「..... Nothing will change even if I apologize.」

(Yuki)「In the end, there is no meaning if you don't grab the hand you called for help. Lulu, these past few days you just cried and screamed. You were unhappy. You had no choice but to do it. Or so you thought. Lulu, you don't have to live for the sake of bearing my children. Rather, you should live for the sake of the children you will make. Does that sound different to you in the end?」

(Lulu)「..... What I should do is not to be pregnant with a child... huh?」

(Yuki)「It's okay for today if you understood that much. For the moment, don't embrace the situation too much and go back to your room quietly.」

Eventually, I put on the Yukata I took off previously and went outside of the chamber totteringly.

For a while, I remained, shocked, inside the hallway. I tried to think, but couldn't gather my scattered thoughts inside of my head.

The action I should take is not to bear Yuki-san's child...

I wonder why?

As it's different from the promise, will I get kicked out of the Dungeon?

No, there is also the possibility that I become in use to expand the Dungeon elsewhere.

If they remove the given protection and kill me for DP...

(Lulu)「Ahh」

My feet got caught into the Yukata, and I fell to the floor.

(Lulu)「It hurts...?」

From my knee, blood started to spill. It was a small wound. Insignificant.

(Herge)「Huh? Lulu-sama? Are you ok? I'll treat you now.」

From the corridor covered in darkness, Herge-sama's gentle voice broke out.

(Herge)「Heal. Yosh it should be good, the little pain is flying away. But you're not a child right?」

With shyness, Herge-sama apologized.

(Lulu)「No, you were a big help. But the pain?」

(Herge)「Well Umm. Even if I cure the wound of a kid, he still continues to cry for a while. The pain is not the only reason why a child cry. There are various other reasons. Because his parents scold him, or because he is worried or maybe joyous. Did Lulu have experiences like this?」

(Lulu)「No, because I was working inside a clinic doing business work... Humm」

(Herge)「Let's see. When you cure a child, was there a time one continued to cry?」

(Lulu)「There was, but since the wound healed, I went to the next person...」

(Herge)「Yes, because Lulu-sama is the Holy Woman of Ritea. But you should take some time off work」

(Lulu)「Huh, the same「Cause」 yet again. Why are you saying those words?」

(Herge)「Oh, I'm sorry. The child cried because of the wound. But the hard part of the work is the part that doesn't always make sense. The wound disappeared but that's not the most important part, it is to explain it. So「The little pain is flying away」bring the fact that it healed whether it was cured or not. Then there is a reason not to cry, so the child will smile. Well after that, there were still kids scolded by their parents who started to cry again」

(Lulu)「Well about that, isn't this a pretext for your feeling?」

(Herge)「Yes, I think it may be possible. A scratch on my knee usually heals by next day. But I'm not crying. I want everyone cured by this Herge to have a smiling face. In contrary, If the injury worsen, I will be troubled.」

I smiled wryly to Herge-sama while remembering the scene.

(Herge)「Now that was a long time ago... I hope that the child won't be caught in a battle. I wish for them to keep smiling. So that one day I can return to them the important thing they gave to me.」

Displaying her thoughts, Herge-sama offered her prayers under the Dungeon's false moon.

(Lulu)「You received something from the kids?」

I had doubt about Herge-sama's words.

(Herge)「Yes, they gave something vital to me. Even if I fall... I will stand up for the children. For them, it's often the first time they're hurt. It's the first time they experience great terrors, and it hurts. That's why they cry. But in the end, every child stand up and walk on their own feet. Parents treat their kids themselves, they scold their kids, and in the end, they ask for my treatment.」

She took a breath and continued once more.

(Herge)「... .. Because of my mistakes, I brought a lot of troubles to Lulu's saint country Ritea. To the Gai country and even to my homeland, Roshuru. Before, I cursed my misfortunes. Why something like this only happens to me. But then I met Mauve-san, Millie-san, and everyone. I was merely acting for my self-satisfaction. Yuki-san, he severely scolded me. Until I finally noticed... I was just an injured crying child not able to stand up. I still don't know what I can do, yet I'm sure there is something I can realize. I'm not screaming anymore. Then I thought it would be better if I helped to enrich the life in this Dungeon. Even if it's unpleasant for Millie and she doesn't allow it, I will not stand still for the sake of the children. I don't want people to talk behind my back. I will fight against my injuries as a Holy Woman」

When I heard Herge talking, I thought that her mindset was very different from mine.

What a dazzling way of life.

After all, what I did was begging for my life.

But compared to Herge I...

(Herge)「I've stopped lamenting over the things that I can't recover. From here on, I will help as much as I can to improve the future. Even a kid doesn't drag his injury forever. I will begin new and fun things.」

The whole atonement was a negative answer...

It was a mistake from my judgment.

What was the saying? Is it like comparing something muddy with something sweet or perhaps pure?

3) Right at this point there is this sentence, I'm not too sure about it. If anyone has a better translation: なんというか、甘いというか、清も濁も併せのむという奴でしょうか？

(Herge)「Lulu-sama? Is it strange? My way of thinking.」

With a puzzled expression, Herge-sama looked towards me.

Therefore, I had to answer firmly.

(Lulu)「It's a very respectable way. How Herge-sama talked. About how even a child can stand up. We cannot afford to crouch. Let's do our best tomorrow.」

(Herge)「Yes ! !」

Really, I was going to study hard from now on but... The light next to me was too dazzling.

# Chapter 40 - Selfish

side : Lutz

After we had heard that Herge-sama talked with Lulu-sama, Labiris-chan and myself went back to onii-san's room together.

(Lutz)「As you planned, Onii-san. We made her fall on purpose then Herge-sama came to heal her wound and had that particular talk with her.」

(Labiris)「... Yuki, was it needed to work in a hurry? Lulu-sama has yet to rest her mind since coming here. What's more, anyone hearing her complaints would want to throw up. Yuki, you only had to say one word, and I would have cut her neck...」

As for me, I was thinking the same that he rushed it. Lulu-sama was only here for one week. And she fled from her country only to receive this treatment.

(Yuki)「That would be okay if she was of nobility or a simple girl.」

It wasn't like onii-san to drink alcohol. Maybe it's because he was never able to reach a state of drunkenness. The more you drink it, the more you will get attacked by nausea the next time. So far, I didn't know if it was true or not.

(Lutz))「Regardless, that one condition from Millie's party is simply absurd. We are stalling for time as much as we can but she has yet to steady her mind, and it has to originate from herself. I'd like to have a convincing explanation. I want to hear it from you because I cannot help but think that you're blind in this case.」

I asked onii-san about an explanation concerning Lulu-sama's treatment.

(Yuki)「..... If you have those intentions about Lulu. Then you can as well go to the Holy Country Ritea and turn everything back to how it was before. Because the deadline is near, I can't afford to take my time and wait that everything settles by itself.」

(Lutz)「What!?!」

(Labiris)「Are you serious Yuki!?!」

Not to mention my surprise, even Labiris-chan let out a roaring voice. That's impossible! I would have sent her to a place where she had high chances to die, not somewhere like bringing her back to home.

(Yuki)「In the end, what awaits her is death, whether she stay here or not. Because when you say to someone that he is poor, then he will tend to go into misery. The same applies to her. Firstly with their boundless request. Then with Lulu own misery. Afterward, only two options remain to her. To be kicked out or suicide. If she was to live for the sake of her children, it's good. But to make children for the interests of living is horrible. I don't want my kid to be bothered by a thought like「I was born purposely for my mother's survival」or 「My mother killed herself after she had to give birth forcedly」」

Onii-san, what you said made sense. When I was an adventurer, I participated in a quest which was requiring to destroy a bandits' hideout. Every time, I saw a lot of women violated and used as tools. Roughly one month after we saved them, nearly half of them chose to suicide.

... After that, only children with ties of blood remained. I asked the women who survived because I wanted to understand.

(Lutz)「Why did they chose to commit suicide? And why you didn't?」.

She gave birth to a child just after she was saved, and while holding him in her arms, she answered my awkward question.

(Woman)「For me, I don't quite understand the reason for their suicide. But I think they certainly couldn't compromise amidst their hearts. I was also teased by men and ended up receiving this child. When I look at him, I just can't abandon him. The people who passed away because they couldn't bear it, they leave their children behind. However... I find it disgusting to leave behind another child. Although he was not the desired child, he was still born in the end. This little one is the only warmth remaining for me. This is because I have this child that I try to live.」

After all, the livings have a will to live. Those who die didn't have the will to live.

After enduring great troubles and giving birth to children, they can only go forwards if they are strong willed. After that, if everything advances without accident, they can only hold their unhappiness within themselves.

(Lutz)「... Lulu-sama was provoked, but it turned that she avoided suicide. But why do you want her to return at Ritea?」

(Yuki)「As I said earlier, we had no problem if she was a noble's daughter or a simple girl. Can you remember what was Lulu's standpoint?」

(Lutz)「Lulu-sama was the former number one of the Holy Country Ritea.」

(Yuki)「That's right, so don't you think that she is a weight too heavy for our little Dungeon to carry?」

(Lutz)「I think so. However, can't she live quietly if it's just a facade?」

(Yuki)「Is she was to live quietly it wouldn't matter. But she negotiated and not in a way someone without any power would. First by taking information to sell to us. Secondly by intervening in the Management of our Dungeon. Do you know what I mean by this?」

(Lutz)「..... Huh ! ? Is Lulu-sama trying to act like a ruler!??」

(Yuki)「That's right. Lulu has yet to forgot her pride as the Holy Woman of Ritea. At first, I was a bit unconscious about it. However, it's different now. The distraught in the earlier meeting made me this way for a while. If she wanted to help in the first place, she wouldn't take a position as a martyr. Because of her, no conflicts will happen. It seems that Millie and the others are already reflecting about it」

Finally... I Understood. If Lulu-sama wanted to liver here, she shouldn't be telling any opinion as a ruler.

Lulu-sama has a lot of skill. She will play her hand to temper the Dungeon without showing anything in public.

Risks were very likely to exist for this Dungeon.

This is a result that everyone of us should avoid. That's why Millie had this particular reaction.

(Lutz)「However, Lulu with the pretext of being a Holy Woman participated in the Management. This isn't a problem because this is a Dungeon, and thanks to the Gai and Roshuru countries, even the houses will end free」

(Yuki)「... .. Now that an alliance with Ritea has been formed, the country which is sheltering Lulu has to send her back immediately or when asked should handle the matter of the assassination appropriately. For a country, the profit is likely to be high. Whereas she was setting priority to the topic about the homes of the commoners, it proves how simple-minded she acted. She tried to help them without hiding her identity.

With my selfish motives, it might destroy this village, but I want to cooperate with her further. That's about all I had to say.」

While onii-san had answered my questions, I started to feel dizziness... Initially, no matter where she was going, actions that are already familiar with her real identity can not be taken.

... .. Although she is intelligent, she didn't understand it.

(Lutz)「..... I see. She is unaware. If there is a chance, I will return her to Ritea. That's is what Lulu-sama should expect. However, we can't neglect the current situation and act without hesitations.」

How selfish.No, was it because it's selfish that I unconsciously sympathized?

(Yuki)「Such a thing is never a reason. However, until how long will Lulu be allowed to cross the line? Especially by further increasing the gap between her and Millie's group. She might even end up suiciding.」

So that's why. Because onii-san hated the ending where she suicide he used his hand to crush it as soon as he could.

Mainly thanks to the injury which led to Herge-sama's sweet talking followed by a good conversation between the two.

(Lutz)「Onii-san that... Was the reason why you helped Lulu-sama only a pretext? When you said that we had no time... Impossible!」

(Yuki)「It's been one week since Lulu came here. The time needed to walk by foot from the Holy Country Ritea is one month. Ten days by horses. Perhaps even less with a fast horse. In other words, even if Ritea doesn't know whether Lulu is dead or not, this news should be certified by most of the higher ups.

That's why I improved the security around to prevent those hardliners. While Lulu's death isn't confirmed, even if they don't hear any report testifying her death they can still handle the situation. Also, if we take over some of Lulu's belongings and we bring them somewhere, they're most likely to believe in her death. Well, here is the problem Lutz. Why would they assassinate Lulu?」

(Lutz)「The possibility is high that because, as you said earlier, she had a lot of abilities and authority. She was probably a hindrance... Huh!? In other words, it was something like that!? The Holy Country Ritea has different factions, and a hardliner faction who isn't following Lulu made a move!？」

(Yuki)「It's like that. If the hardliners grasped the full powers, then Lulu would have gone down smoothly without any problem and without raising any appeal. The reason why they had to kill her was that they wanted to gather the remaining hardliners scattered inside the multiples factions. Well, now we need to find something for Lulu to manage. Then we need to find a place for her to live in. The place shouldn't be too crowded, what would happen if someone learned about the assassination?」

(Lutz)「The situation suddenly took a big reversal. Those hardliners, if they didn't act, with Lulu's leadership her plan to take over Ritea should work. Hence with their assassination, they wanted to dispose of her swiftly. Fortunately, Lulu-sama should possess some hardliners still following her. Because they should discern where lie loyalty and justice.」

In the end, everything turned well.  
For how long did you intend to instill your hand in this matter?

(Lutz)「... But, onii-san. Why are you going so far for Lulu's sake? I think the chance of failure is high.」

(Yuki)「Uh? Why is everyone saying that it's for the sake of Lulu? And as for whether this ends up in failure, or this ends up in success, whichever happens, will befall me. For example, let say that for worst, Lulu returns to Ritea and dies. In this way, Millie's and the others' anger will lighten a lot. Whereas if successful, she might or might not go back to the top of Ritea, yet it will considerably improve her position. When that happens, the assistance brought by the Dungeon is justified. And she will supposedly help the Dungeon

afterwards」

(Lutz)「It's cruel, isn't it? Onii-san. Please stop already with your unskilled and irresponsible selfishness.」

(Yuki)「... Really. To be frank, I really want to help Lulu.」

Yes, onii-san, you just wanted to help Lulu-sama.

Even though both are fine, you didn't need to help when it's so troublesome. All you had to do was to leave it to Lulu. However, you weren't going to do that. Particularly when you tried to explain some benefits when you were just selfish.

(Yuki)「Well that—, for the sake of helping Lulu, if we move poorly with Roshuru, it will end up a big loss for the Dungeon. Is it unreasonable to calculate the benefits and move?」

(Labiris)「Yeah yeah, Yuki is a scoundrel～」

(Lutz)「Seraria-sama and Lulu-sama. You bestowed upon them protection, and yet you're still trying to act elegantly. Were you planning to suffer everything by yourself? Weren't you? Onii-san. To drive that far with alcohol while we think about Lulu's future, I can't let our onii-san's number one brain go dull.」

I said that and took onii-san's sake.

(Yuki)「Ha-a, don't you know the joy of falling asleep while drinking sake? I was drinking for her sake. Therefore it was nothing...」

(Lutz)「Truthfully, we have no time, because the hardliners are hardening their position inside the Holy Country Ritea. If Lulu-sama wants to go to the battlefield immediately, do you still desire to make it as safe as possible?」

(Yuki)「.....Yes that's right. Presently, if she remains in the present state she will most likely die. I want to play my cards this time, but how to do it when the person herself is feeling helpless? Looks like this time, I can only draw Mauve out of my hand. The rest will be which items I will give to them.」

(Lutz)「As expected. With her state, Lulu-sama won't be able to make it. Furthermore, with us here and with Seraria-sama and Herge-sama coming from Roshuru, we can't make a move. If we do, then it might create a crack within the internal affairs of the alliance. I don't mind making the declaration later but I

think now isn't the right time to intervene?」

(Yuki)「That's it. As for Lulu, she will have to go through herself.」

(Lutz)「Lulu-sama should be made aware of her responsibilities in this matter. She has to do it and return to Ritea by her own means. We need to tell her that she must do it, from now on until forever. What do you think about it onii-san?」

(Yuki)「We can't move by ourselves, Ritea is Lulu's place after all. I'm not going to help her right away.... ... There is still three more days, and I think she will make it. If she doesn't respond by then, it will be really hard to return Ritea back to its previous state.」

(Lutz)「That is also... Will Lulu-sama makes it in time?」

(Yuki)「Without using Herge as a medium, I don't know if she could.」

(Lutz)「... That's hard. And what Herge-sama said. Was it good? Or was it bad?」

Now, Lulu-sama.

This is an answer you already had.

Please somehow, end up with the answer onii-san wanted.

# Chapter 41 - Heated

Side: Riel

Now, we were in the middle of managing the Dungeon.

To be honest, I never thought that one day I'd be able to create towns and villages from my own hands.

With Yuki-san's ability as a Dungeon Master, the nine of us were mostly able to handle everything.

I looked at the paper where I wrote down the current situation.

Dungeon Village (Name undecided) Riel candidacy: The village of Yuki's delightful companions.

Floors' details:

First: a future increase in the overall size to 20 km<sup>2</sup>.

1700 DP: Acquisition (100 DP per 1KM) — 170DP: Yearly maintenance (10DP per km)

- 1st floor defense is a verdant land of 5km<sup>2</sup> with layers of defense. We already made the paved road.

Weather added: (Morning and evening)

500 DP : Acquisition — 50 DP : yearly maintenance

- 2nd floor, the last line of defense. Its length is 10 Km<sup>2</sup>, and in every direction, soldiers are stationed, trenches are dug, barbed wire are installed and checkpoints made.

This base is a wasteland. Yuki wanted to introduce a few Tochka1) A Russian military short range missile ballistic but they cost 100 000 DP per unit so it was out of the budget.

Weather added: (Morning and evening)

500 DP: Acquisition — 50 DP: yearly maintenance

- 3rd floor: residential district 10km<sup>2</sup> based over contemporary Japan. Prudence with this one.

Adding a weather (All season)

5000 DP: Acquisition — 500 DP: yearly maintenance

Adding nature.

1000 DP: Acquisition — 100 DP: yearly maintenance

- 4th floor, agricultural district, industrial district, and the working zone. This floor is 20km<sup>2</sup> with grassy plains and forests.

Adding a weather (Sunny and rain)

2000 DP: Acquisition — 200 DP: yearly maintenance

Various colored fields for the agricultural district. (I heard from Labiris that the fields are from Yuki's recommendation).

4000DP DP: Acquisition — no yearly maintenance. we will grow on our own after the first harvest

The forge in the industrial district (I can't really understand this one... Especially since Philia is so tiny)

10000 DP: Acquisition — 1000 DP: yearly maintenance

- 5th floor. Adventurers district, leisure district, amusement district, and small Dungeon facilities.

This floor is 20km<sup>2</sup> with grassy plains.

Adding a weather(All seasons)

5000 DP : Acquisition — 500 DP : yearly maintenance

- New floor creation

The creation of the 4th and 5th floor for 600 DP (300 DP each.)

The total is 30300DP, and the annual upkeep is 2630DP.

Details of the immigrant houses ※ The number of possible inhabitants is counted by Yuki's standard (Japanese of today).

- The number of houses built is 20 (A house can hold at most 6 people). It will accommodate about 100 people.

10000 DP: Acquisition (One is 500)— 1000 DP: yearly maintenance.

- 15 apartment buildings. Each with 10 rooms (Tenement? Maybe up to 4 people per room) will accommodate about 600 people.

15000 DP: Acquisition (One is 1000)— 1500 DP: yearly maintenance

- 2 training facilities. Each one can accommodate about 300 people with many classrooms.

15000 DP: Acquisition (One is 7500)— 1500 DP: yearly maintenance

- The military post. One building including a training ground that can accommodate about 200 people.

※ This is also based on the standard facilities of modern Japan. Not less than half of the installation will be used anonymously by Seraria and her people.

50000 DP: Acquisition — 5000 DP: yearly maintenance ※ Yuki's hobby, the firearms, are also included.

Subtotal 90 000 DP Acquisition — 9000 DP yearly ※ All homes have bath and toilet included.

Commodities, food and shop supplies.

- The value of the food stock to give three meals a day for five years For approximately 400 persons

is at least 30 000 DP. For meat, vegetables, and soup.

- Luxuries food and product.

30 000DP with noodles, sweets, desserts, drinks, *etc.*

- Consumables of absolute necessity.

20 000DP . Clothing, toilet paper, copy paper, files, pens, *etc.*

- Luxury consumables products.

30 000 DP Hobby clothes, shampoo, rinse, soap, perfume, *etc.*

- Products for the adventurer shop.

50 000 DP. Maintenance, weapons, armor, potions, toolkit...

- Weapons for the guards.

10 000DP. Something like stun guns?Armors, Uniforms, *etc.*

- Educational materials.

10 000DP. Whiteboard, pens and necessary tools *etc.*

- Yuki's monster forces, increase of supplies.Firearms, vehicles, *etc...*

100 000 DP ※With pistols which are starting from 300DP、and vehicles for 1500DP each.

※ In addition, an individual magical authentication is required, so it cannot be used when stolen.

※ Currently, the goblin army and the slim army are training with the guns and

vehicles.

Total 270 000DP

Details of the others facilities.

- Construction of Lutz's company's small shops and uniforms. Managed by Lutz.

Floors 3 4 and 5 will have at least two stores each.

10 000DP of a budget for her stores should be sufficient.

- Construction of the entertainment facilities.

Tavern, a Japanese inn, hotels, public bath, *etc.*

20000 DP of a budget is barely enough I guess?

- School

5000 DP of a budget should be sufficient. There won't be so many kids.

The total is 425300 DP with an annual upkeep of 11630DP.

After that begin the construction of the small Dungeon and the costs to set up the guild.

- Five small dungeon

25000 DP (Each is 5000 DP)

- Five dungeon cores

25 0000 DP, (a core is 5000 DP)

I didn't need this, but because we need to manage them, the dungeons are raising my fighting spirit so I was enthusiastic.

If Someone snatched the dungeon core then the Management of the small dungeon is a fail.

Furthermore, each member who will make a Dungeon is assigned a definite number of DP he can use freely.

With the sum of 50 000 DP for the management. It includes the budget for the maintenance.

The total is 475300 DP and the annual upkeep 11630 DP.

We only had 22304 DP for the annual maintenance costs.

Various comments were cast by Yuki-san.

I wrote the details with considerable attention but in an easy to understand

way.

But...

「「「Please reduce the increase of supplies for the monster forces」」」

Lutz, Millie, and Ellis promptly pushed their request.

(Yuki)「Cho2)Expression of surprise, suddenly!? Nice distribution I guess!？」

(Ellis)「I don't understand what are these firearms. Even though the traps can handle almost any military force, what kind of weapons they are?」

(Yuki)「Ugh3)Dispirited sfx」

Ellis' sharp comment flew out.

(Lutz)「I really want to go through the request of onii-san. However, to invest 100 000DP in it is unacceptable! Please at least use a maximum of 30 000DP」

(Yuki)「Less than the half ! ?」

Lutz readily sharpened the amount by more than half.

(Millie)「I am sorry. For at least 3 years... We need to hold this long even without any income so we should have a bit more DP」

(Yuki)「... I think that's right.」

Millie excuse seemed to give a reason.

Yuki-san needed to understand, but it was easy to pull.

With the sight you displayed, you probably realized after all?

(Riel)「Hey, everyone. What will you decide now? You already finished the details of the 「Floors specifics」and the 「Migrants houses」? In that case, I want to talk about what I plan to with the stationed army and the training facility, is that okay?」

I thought so and talked.

(Millie)「Riel. It's sweet. It's sweeter than the ice cream I ate here for the first time. From now on, what we decide here...」

Lutz paid close attention to Millie.

(Lutz)「The luxuries goods, which one to include and how much of them!!」

Millie raised her fist to the sky. No, to the ceiling.

(Ellis)「Well, clearly it's easy to understand... So. To increase Riel's favorite fish food amongst other thing or to buy an exotic weapon. Taking into consideration at which place we are.」

With a wry smile, Ellis explained it clearly to me.

(Yuki)「You can think of the luxuries goods prices.」

Finally added Yuki-san.

(Riel)「What is that...!? Well then, please restock this four cardinals shuriken4)!! I want more of that one!! It's only one copper!! And it's the same for the kodachi5) Short Japanese sword !!」

I came to Yuki-san, and he took one out.

Was it Japanese? I got the weapon and felt its greatness.

Shurikens were perfectly suitable for my hobby. Because it could give damages like an arrow by hand throwing, and like a kodachi or a katana, it could display a frightful sharpness!!

It will inevitably become famous if you sell it!! Sell it cheap!!

(Lutz)「Only this!! the heck, how many shurikens and kodachis do you think we have? ! A shuriken is 50 DP piece. A kodachi or a katana is at least 500 DP. To sell it for only 1 copper per item, are you making fun of me?」

(Riel)「Hiss6) Surprised/rebuked sfx ! ?」

Lutz became angry with a horrendous momentum...

Why did she get so angry～.

(Yuki)「Now, Lutz calm down. That's right, Riel. In your adventurer days, how much did you earn a day?」

(Riel)「What with the sudden question? Let's see, many silver coins, 5 at most. And the less I had was probably 7 coppers? Even with only this, for me that was incredible!! In one day, 5 silver coin!! It was half a gold coin in a day, therefore!! A gold coin can make a family of 4 people live for a whole month」

I told them my earnings with full confidence.

(Mauve)「Wow. When I was accompanying the young miss Riel for training, I

thought she performed awfully, but surprisingly she earned very well. Her rank was... 5 or maybe 6?」

(Riel)「Oh, excellent observation as you would expect from the hero!! I was of rank 6. As for you Mauve you were rank 8.」

(Mauve)「That's true. Until then I was doing good. As expected of the soft young miss Riel to omit those parts」

Mauve-san was talking happily.

At this place, because I didn't have many turns remaining, I had a lot of nice chat with Mauve-san and his friends.

And then, yesterday. Because the training school was done, I trained until dinner with Mauve-san's party, Tori and Kaya.

(Ellis)「I am sorry Riel to interrupt your story. The amount an ordinary citizen can earn in a day is about 2 to 4 coppers. An ordinary person will bring 1DP per hour. In other words, we get 24 DP in a day.」

(Riel)「I understand.I know that.」

(Ellis)「Riel seemed to earn more than I thought. Nevertheless, let's assume that at least 7 coppers = 24 DP」

Ellis walked to the whiteboard and wrote what she told earlier.

(Lutz)「Shuriken was it? The one Riel wished for are 50DP. In other words, Riel won't be able to buy it if she doesn't work for at least two days. Kodachi and katana amount for 500 DP so it would take 20 days. If you sell them for only one copper per piece, we will soon run out of DP. Do you understand?」

(Riel)「I understand. I'm sorry Lutz, I spoke without consideration. I was a little carried away.」

(Lutz)「No, I'm sorry for my shout earlier. However, thanks to Riel's story we have now found the general exchange rate for a DP.」

(Ellis)「Yes, it's roughly 24 DP and around 5 coppers coins? There is a necessity to follow various procedures according to the good.」

Ellis said so and talked with Lutz.

I was a bit scared, and my eyes became watery.

After all, I was not helpful.

(Yuki)「Riel, don't get depressed. You firmly said important things. Thanks to you, our talks will progress a lot.」

Yuki-san stroked my head.

(Riel)「What I said, Was it useful?」

(Yuki)「In a sense, the exotic weapons Riel talked about will become a specialty here. We also understood the overall money value of a DP. You did an outstanding job.」

The way you were talking to me Yuki-san...

(Millie)「Fufufu, Ellis, Lutz. Since we found the value of a DP I have a suggestion!!」

Since she used a loud voice to talk to the two, the gazes of everyone gathered around her.

(Ellis)「What is it Millie?」

(Lutz)「Any suggestion?」

Almost at the same time, Ellis and Lutz answered Millie.

(Millie)「We should invest 5000 DP in ultra-luxury goods such as Ballantine7)English scotch that take a year to buy!! I'm sure the residents will work firmly for this goal!!」

「Shut up, you drunkard ! !」

I think that Millie was sometimes going out of control with liquor. No matter how I look at it, I understood from the conversation earlier regarding the exchange rate how stupid it was to use 5000 DP.

(Aslin)「Lutz-san. I want this!!」

In the midst of the quarrel, Aslin brought and handed her paper to Lutz.

(Lutz)「Ice cream ▪ Potato crisp ▪ Chocolate... ... Millie, isn't her heart pure?」

(Millie)「Ngungu gu ... Aslin!! But I want to drink delicious alcohol!!」

(Aslin)「Fue!?!」

(Lutz)「Hey, aren't you done!! Aslin-chan please, come over here. That woman has a drinking disorder!!」

It was somehow becoming incandescent.  
But, if you wrote what you want like Aslin, I wonder if it was easy for Lutz to understand?

When I thought so, I was going to write on my copy paper...

(Lulu)「Well ! ! Can you listen to me!!」

It was the Holy Woman who remained silent so far.

「... What is it? Are you dissatisfied?」

Millie scowled with cold eyes. I thought that it couldn't be helped.  
Not a chance she would continue. Kaya had the same look in her eyes.

(Lulu)「Yes. The treatment facility that I talked about the other day. Because the budget for the guard facilities isn't decided, please reconsider.」

... I realized now. The voice from a little while ago came from Lulu.  
Until now it was only Herge-sama, did she have a change of mind?  
However, shortly after I was considering such a thing.

(Millie)「Oh, I forgot. I'll find the budget for it, I'm sorry.」

(Lutz)「Let's use the reduced budget from Onii-san.」

(Yuki)「So heartless ! ?」

Thus, this meeting became flooded with luxury goods.

(Riel)「Now I should write my favorites things too ! !」

# Chapter 42 - Fox And Answers

Side : Kaya

I couldn't do anything.

I saw the village. It was burning.

Without the power to raise my tattered body up, I just laid there clumsily...

In the village, the candidate to be the leader of the vigilante corp talked.

He took pride in his martial arts, magic, and sober leadership ability.

And his lover was in the village too.

He was my Childhood friend, he was unyielding and kind, but we mixed very well together.

He was happy. Not too modest, he had a little appetite.

It should have been a peaceful village...

But one day.

...The Holy Woman Herge visited the village, and everything was burnt down.

No, strictly speaking after the Holy Woman Herge came and walked away, the soldiers of the same country Roshuru took their way in and turned everything to ash.

They thought that we were connected to the「Gai country」so they came to dispose of us.

I couldn't find the reason behind. Why did they attack?

The village never did such a thing!!

I desperately fought back to let the villagers and everyone escape.

The Fox is a race that is particularly unusual amongst the beastmen and is a race good at magic.

The Fox tribe is outstanding, with magic as the core and taijutsu together, our most important purpose is to become warriors.

Still, our numbers were tiny, there was nothing I could do.

When the leader and I fought desperately and defeated many enemy soldiers, a man wearing gorgeous clothes came from behind.... Pointing a sword at my important person.

Taking hostages, the coward brought out his request.

(Loire)「Kill the man next to you. If you do so, I guarantee your and that man security. I am a minister from Roshuru. Loire Escher. The other villagers are the same. If you kill that man, I guarantee your safety.」

What now... What was he thinking? Furthermore, he took a hostage from behind.

Mostly all the villagers of this village were here. It's a small village, filled with less than 100 people.

Even I know right now who isn't there.

Thinking outside of the dead body lying around here, they are 4 to 5 people.

(Loire)「If you still want to continue to resist. I will recognize this village to be entirely a spy from the Gai country. In other words, I will execute everyone at this place.」

We had no choice anymore.

Even though I knew it was a lie and a trap, I couldn't help but accept his demand.

Eventually, all the villagers would end up killed.

... A young girl survived, but several people died on the spot as if they were a plaything.

The rest were sold as slaves.

(Man)「...Ya!! Kaya!! Grip yourself!!」

(Kaya)「... I'm sorry. Please leave now. Otherwise both of us will be caught.」

And I also saw this dream.

I was usually poor at that time, but it was still amazing.

I was running through the woods with my childhood sweetheart.

In the end, it didn't mean that I had the strength to continue indefinitely.

His breath was getting rough.

The moment we thought that we would be killed off.

A teacher from the village used a magic light to blind everyone's eyes.

We benefited of the occasion to run away with my childhood friend.

It was as expected, a deluge of arrows rained, and only a few managed to escape.

Because of the previous battle and the wounds from the fight I already lost

almost all of my physical strength by the time we left.

So he wanted to save me at least.

But...

(???)「Come here!! Your resistance is over!! Surrounded, you are surrounded!!」

(Man)「Kaya, Kaya, I wanted to protect you!! And yet... I could not...」

An axe was stuck in his head.

It might be someone amongst the enemy who threw it.

I fell with him, motionless.

(Loire)「This woman is tattered but she's a great beauty. To kill her doesn't fit. Let's sell her with the rest!!」

And then Loire grabbed my hair and pulled my face to watch it.

Yes, the hairs he called beautifully fell off.

(???)「What are we going to do with this guy?」

(Loire)「There is no way someone with an axe in the head can stay alive. Throw him away.」

They separated me from him.

As my last will of resistance, I tried to hold his hand vigorously.

But such a power was broken loose, leaving him behind.

Gush of tears were falling from my eyes. They didn't stop.

(Kaya)「...Huh!!」

I woke up in a dimly lit room.

Where was this place?

Looking around, I found Tori and Riel in my sight.

(Kaya)「... This is... the inn.」

So, here was the inn located in the lowest level of the Dungeon.

It's a private room given to us by the Dungeon Master.

Most of the members gathered in someone else's room and slept with three to five people.

I think our private rooms were quite luxurious.

It's my private room, but even if Tori and Riel came to sleep, it's not crowded. My personal room was mainly filled with 3 rooms. 10 tatami mats<sup>1</sup>) Japanese people measure the size of a room by the number of tatamis you can fit inside, a tatami is a sort of bed. , 8 tatami mats and 8 tatami mats had said Yuki? He said 10 tatami mats was the living room. 8 tatami mats was the bedroom. Finally, the last 8 tatami mats was the hobby room. And it's equipped with a toilet and a kitchenette. Closet? It's also there. The bath「Not in the room, are you stupid?Do you want to die?」He seemed that he had no reason to attach behind it.

(Kaya)「..... Water」

My nerves aren't so thick as to try and sleep again after waking up from such a dream.

I sneak out of the futon as to not wake Tori and Riel.

I went to the kitchen and poured water into a cup.

(Kaya)「... It's a luxury. This place will become very happy and luxurious.」

It seemed that Yuki told us to get used to it.

In just 6 days. Well, the kitchen and the convenience of the facilities no longer surprised me.

And I understood.

This luxury, this convenience, people will surely dwell happily here.

Not only that, if Yuki's policy ran this dungeon, people will be able to get what they want from their own hands.

Unless Yuki or we become lost in self-interest, this fortress was also great against any foreign enemies.

(Kaya)「... And so, I have to eliminate my personal feelings as much as possible.... I can not bring conflicts to this Dungeon.」

I told myself.

The next day after I came here, I learned why my village got attacked, the cause.

Herge-sama was played by Loire with the help of the Holy country Ritea, creating actions that brought warfare.

No, Loire burned down the towns and villages where Herge-sama went and

brought a state of war against the Gai country.

From that one day. Whenever Herge-sama appeared before me, I couldn't stand my hateful feelings.

At that time, Loire had already been disposed of.

The only one I could still call my enemy was Herge-sama when she was in front of me.

Millie threw a teacup and shouted which attracted the gaze of everyone.

I was also held down by Tori and Riel.

But Herge-sama as if asking a favor from Millie lowered her head and apologized.

Even so, this story was unforgivable.

I was surprised. I thought she was the same as Loire.

Then, Herge-sama tried to find how she could atone and asked a favor of us. She told us that she was a guardian herself.

(Kaya)「... The condition is somewhat wrong」

Yes, Herge-sama was a strange person.

She was desperately trying to ask for forgiveness, I thought that I could refuse, but I was wrong.

Somehow, I thought what she was doing was correct.

I also heard of what relationship she had with Mauve-san's party.

They became slaves by themselves and apologized to the one they beat down and used as a plaything.

... Outrageous, flower garden.

(Kaya)「... I am sweating. A bath」

Drinking water, I noticed that my body was soaked in sweat.

Because I can't sleep like this, and to change my feeling, I went toward the bath.

I had a beautiful Yukata, and I quietly left the room.

(???)「Oh」

(Kaya)「... Oh」

Into the dressing room, someone else was undressing.

Who do you think this was...

(Lulu)「Kaya...san is it?」

Lulu who was another of my enemy was there.  
She called out to me to see how my mood was.

(Kaya)「...」

(Lulu)「..... I'm sorry. You seem to be bothered.I will go out...」

(Kaya)「... I don't mind.」

After I had said only that, I took off my Yukata by her side and went straight to the bathhouse.

(Kaya)「... Will you not enter」

(Lulu)「No, I will bother you.」

(Kaya)「... You don't particularly need my permission.」

Both with an awkward atmosphere floating around us, but since I didn't say that I hate it, the distance wasn't so far. We had washed our body before we went to the bathtub together.

In the sky... A fake but beautiful night was spreading.

Followed by silence.

(Kaya)「... Why do you go in the bath at such time?」

Somehow, I tried to question Lulu.

(Lulu)「Hey, did you think a bit?... About what we can do from now?」

Oh, I remember now.

Me and her are part of the same cup in this Dungeon. I remembered the incident on the seventh day.

Unlike Herge-sama, she was not protected after the request of the country Roshuru.

Because she was an obstacle, she closely avoided assassination, and she ended up her

To an extent. It was the same as me. I lost everything, and I was now here.

When I thought about that, I fell silent. Lulu-sama was certainly feeling awkward...

(Lulu)「... Do you hate me?」

(Kaya)「Yes, to the extent that I want to kill you right now.」

I answered her question firmly.

This feeling wasn't false.

(Kaya)「... But some day Lulu-sama. I think that the time when I can forgive Herge-sama may appear」

(Lulu)「What do you mean?」

(Kaya)「... My most important person will probably not smile if I kill you.」

(Lulu)「.....」

After I said that, I noticed.

How he would be if he was still here.

(Kaya)「... My... Most important person, he would want me to live a life where I can laugh.... Still, if he was there. I thought that I had lost... everything.」

My eyes were spilling tears.

(Lulu)「.....Are you ok?」

Lulu-sama called out to me as I cried.

Well, she didn't do anything bad herself.

I think it was probably the nations' top who did something.

(Kaya)「... No problem. Lulu-sama, thank you. Thanks to you I was able to remember him.... I thought that I lost everything, the village, and all the important people but it's different.」

After I said this, I closed my eyes.

I could remember now, the smiles of all the villagers in my memory.

(Kaya)「... I lost something, there is no mistake. But I still have the memories of everyone in here. If I was to take revenge, everyone in the village would have a subtle face.」

Yes even if I dyed my hands in blood for revenge, everyone in the village will not deny it, but they would still have a subtle face.

I mean, because they were kind.

Then I will live in a way they can laugh at. Because they certainly expect me to

become happy.

Maybe I would keep dreaming of the burned village and have more nightmares. But it would not be enough for me to dye myself in vengeance.

I wondered what Mauve-san and his friends were thinking?

No, there was no way Mauve-san and his buddies would go on a rampage, it felt too awkward.

(Kaya)「... I will go out ahead.」

(Lulu)「Oh, okay」

After I had talked to Lulu-sama I rose from the bathtub.

I felt as if I could sleep well today.

(Kaya)「... Lulu-sama. I who had lost everything still have things left.」

(Lulu)「.....」

(Kaya)「So, there should be some for Lulu-sama too. I think that you can solve your problems if you find them.」

Her worries, I couldn't understand them.

However, she should have something left.

Anything she can understand from the bottom of her heart, something only her can decide.

(Lulu)「... My, remaining, things...」

# Chapter 43 - Busy And Yet!?

Side : Ellis

(Lutz)「DaaaaaAAAA!? There is too much work to do!! I can't even calculate how many documents there is and it's worsening ahhhhHHH!!」

Lutz suddenly shouted out as if she exploded.  
She still had enough judgment nonetheless not to blow the mountain of documents.

(Ellis)「Hey Lutz, calm down. Here, have some tea. Let's take a break for once」  
(Millie)「That's right. Even when I pour all my concentration, I still make mistakes. It's not good, let's take a break.」

When I proposed tea, Millie was also eager to my opinion.

But that's not the real problem. We had too much work.  
Now that we produced the resident district, it was time for the government building.

In the future, when the representatives of the migrants would be elected, they would work over there.

All of the migrants didn't have to know about Yuki's intentions, that's why we were working as representatives.

We were also in charge to plan the construction and the supply of goods.  
Everyone was divided into departments and had works to do.

(Lutz)「Uu uu... Please onii-san, someone has to call onii-san. I have to use the computer...」

(Millie)「Lutz. Yuki is now transporting the goods to the warehouse, right?...」

(Lutz)「It would seem, although the computer is handy it's only for Yuki-san's personal use.」

When Yuki-san was here, Lutz could ask him to use the computer helping her with calculations.

But the Dungeon Master was Yuki-san.

After he had given everyone various amount of authority, Yuki-san went to do

the first delivery himself.

No, there was simply no one who could do such business work like that.

In each of our rooms, Yuki-san installed a computer. I got one as well...

But I wasn't able to get used to it yet.

I had to say. It was already one week since we came here, and

here... I was still amazed at the useful things Yuki-san gave us.

Especially this computer. Even if Yuki-san didn't have a complete mastery of the system, for us and after only three days, it was impossible.

Thanks to the electronic calculator, we were almost saved but we still had an insufficient workforce.

(Lutz)「Ugaa〜。Why do we even have to do the accounting of the other departments, I don't get that〜」

(Millie)「It can't be helped. Only three people are capable of arithmetic. They are Yuki-san, Labiris, and Tori. The rest of us will have to handle it.」

Millie again soothed Lutz.

Well, that was unavoidable.

In addition to the department, Lutz had to do the accounting for her stores.

Now, I was also entrusted with the accounting of the entertainment facilities.

Drinking my tea, I looked at the paper in front of me. It displayed the representative of every department.

Detail of this year personnel.

Dungeon's decorative representative Seraria.

Dungeon's vice president representative Labiris.

Resident district male representative Yuki

Woman representative Ellis.

Agricultural district representative Kaya.

Blacksmith Philia assisted by Yuki and Riel.

For many districts, representative of the adventurers, Millie.

Representative of the entertainment, Ellis

Leisure, Yuki .

The representative of Roshuru's military; Seraria.

Dungeon representative Yuki.

The police chief, Tori.

Shop representative, Lutz.

Hospital president, Herge.

School representative Yuki.

General Office Building personnel.

General representative Labiris.

Vice President Aslin.

Family management, Ellis.

Accounting, Lutz.

Complaints, Millie.

Event manager, Riel.

Insurance management, Ellis.

Facilities management Millie

..... I had four positions.

Lutz had two. Aside from the military authorities, she held the accounting for the police and the blacksmith. She was also the representative of all the shops.

Millie had three, and the management of the adventurer will be pretty busy when everything starts moving.

The lack of people looks the same in the other departments.

Furthermore, we had a training personnel plan for the migrants who came for the first time.

Collective training personnel.

President Yuki

Vice President Labiris

Management lecturer, Yuki, Ellis, and Millie, about the meaning of this Dungeon's management and how to manage it. With the purpose behind it.

Arithmetic lecturer, Labiris, Lutz, and Tori to increase the number of people able to do some calculations.

Common sense lecturer, Ellis Kaya, and Riel. Usage, description of the facilities in this Dungeon and goods.

Work lecturer, Philia Lutz, and Kaya. About the main work in this Dungeon and the different wages.

Election lecturer, Yuki Lutz, and Ellis to explain how to decide of a new representative. The method.

It was so long that my head ached.

I would like the migrants to go over the other departments as soon as possible.

If they don't do that, we will die from overwork.

... Being an administrator was hard.

(Lutz)「...I wish to do it like this, but without any luxury, I can't.」

Lutz began to munch potato crisps.

We had a talk telling us to not go for extra luxuries and remain with the luxury goods of this world, but since they were already here, we decided to let them where they were.

On the contrary, we took them out later. They were hidden until now, and we could say that what happened out of frustration was a bad judgment.

(Lutz)「Oh, potatoes are so delicious. Especially that dried seaweed flavor.」

(Millie)「What was the word? Consommé<sup>1</sup>) The author wrote コンソメ which is the French word for consume ?」

(Lutz and Millie)「「Ah!?!」」

Right after, Lutz and Millie glared each other.

(Ellis)「Calm down. Before you glare at each other like this, you should clean up all the paper on your desk, otherwise won't Yuki be disappointed in you?」

The interlocution could be interpreted as a mere play but our time was too short.

「Afterward Lutz, we have to put the price of the goods with Millie, Yuki-san and me. We can't do this unless you put together the documents? The rate you had to set Millie, for the Adventurer District, the tavern and the amusement district, can you please submit a summary for me? As for me, I have to put together the data for the Hotel and the Casino.」

(Lutz)「Wow~, Stop it, please!? Help me onii-san... My head is about to

burst!?!」

(Millie)「..... I want to drink alcohol」

Haa, for a starter, I had to wake the two who left reality and put them to work.

Before I knew it, Yuki sneaked<sup>2)</sup> Author used the verb “Come” but I prefer to use “sneaked” tehehehe to our office.

(Yuki)「O—uu, how terrible.」

(Ellis)「Ah, Yuki-san. Did you finish the transportation?」

(Yuki)「Yes. In the meantime, we placed all the essential supplies in every section. We also confirmed their numbers. Regarding the food, we divided and stored it in four warehouses, properly secured.」

(Ellis)「Then, now...」

「When we’re done choosing the price of the goods and the contents of the training institute, it’s a break.Hence, is the draft done?」

Averting his eyes from me, Yuki turned toward the mountain of paperwork in front of Millie and Lutz.

(Lutz)「..... If you embrace me tightly onii-san, I will submit the documents to you...」

(Millie)「..... Liquor ..... Delicious liquor...」

「Yes yes, I understand. After we end the discussion and setting the price is over. Do your best.」

(Lutz)「It’s a promise!! Please embrace me in the bath!!」

(Millie)「I want a full shot of drink afterward!<sup>3)</sup> If someone can guess the name of the alcohol, gl モエシヤのって飲んでみたかったです ! ! Hey, Please !!」

With a sudden regain of life, the two gathered all the documents summarized so far and proceeded to the conference room.

(Yuki)「... Quite the paperwork you have there. Don’t you have any Ellis?」

(Ellis)「No, not particularly...」

(Yuki)「Hmm.I'm sure you have something prepared. You can't just say that you have nothing Ellis.」

Talk done, Yuki began to walk inside the meeting room.  
From the rear, I followed. His back was in my sight.  
Even though he looked very young, he displayed a very domineering aura.  
He was an intellectual who didn't pale in comparison to us, the elves.  
Because I was freed from slavery, I was very thankful, but I still had caution and fears hidden somewhere in my heart.  
Thinking about that, I suddenly remember something once taught by the elders long ago.  
That's how they talked.

「Can you see, Ellis? To fear isn't about fearing the fear itself. It's about fearing the source of the fear. That's right. A strong monster is something to be afraid of. It's scary. Do you know why? Because you can't win. Because if you fight, it's death. That's why you fear. You also fear to be scolded by your parents. Afraid of them being angry. So when you're scared about something, you need to think first about what caused this fear. That's probably going to show a path. Because I don't overlook something I want to protect, I'm not afraid of the thing. Fear is an unnecessary action when it's done excessively. Even if you do something with good intentions in mind, if you're scared, sweats will drop from your hand. Ellis, you are smart. That's why you may happen under extraordinary fear. Hence, you have to remember well.」

Still looking at his back, I thought about what I was frightened.  
I wonder... It seemed as if my answer was there.  
Was I afraid of his power? No. In the first place, this was not something to be afraid of. If he really was like that, he could easily break us apart.  
Was I afraid of his intelligence? His knowledge? No, that's also different. He used his knowledge towards our well being.

(Ellis)「Ah...」

The truth, I knew it.  
It was the fear of Yuki-san. I didn't know what he was thinking, and that's what I feared.  
His identity was unknown. We heard his purpose. However, My thoughts told

me that it wasn't the truth.

(Yuki)「What's wrong, Ellis?」

He asked after noticing my halt.

(Ellis)「..... It's a bit rude, is it okay?」

(Yuki)「I don't mind particularly.」

(Ellis)「I am afraid of you, Yuki-san.... I' am scared. You, what was your real purpose behind all this?」

(Yuki)「Oh? You noticed?」

(Ellis)「...Huh!?!」

He raised one hand, my body stiffened.

This wasn't a necessary fear.

Oh no!... My emotions were in discord. I had to quell my fears before I could calm down.

What mattered now was what he tried to do.

But until now he cherished us, and I paid kindness with ingratitude.

Pompom, my head was suddenly stroked.

(Yuki)「If I explain about the real purpose now, you'd likely not believe me, and I'll be seen as a fool. If things become more stable, I'll tell everyone. So can you cooperate until then? Well, it's not like I can't compromise, I won't force you so when the migrants come, if you want, you can become one of them, and you may forget about it.」

Yuki-san had a very apologetic expression. It was as if he looked sad.

Or that might be how I understood it.

From the beginning, he didn't force anything upon us.

I lowered my head to display my sincerity. In spite of his trust, I threw awful words at him.

「... I am sorry....Huh, what... I did terrible things...」

Before I noticed, tears fell, and I apologized to Yuki.

Although I wanted to cry. I had not the qualifications...

(Yuki)「He, hey!? Oh, what did I do!? E, Ellis-san<sup>4</sup>) He usually calls his slaves without honorifics but this once he used san are you all right!？」

In front of me was the panicked Yuki-san.

(Lutz)「Onii-san. Ellis, you are stupid... Hey ! ？」

(Millie)「Ellis!? What in the world did Yuki-san do!？」

Lutz and Millie intervened in a manner you would never be able to see. For Millie, it was a bit different, however. Here was not Yuki-san's fault at all.

(Yuki)「... I think, maybe I'm to blame. I'm sorry, but please appease yourself, Ellis. Today's meeting, let's do it tomorrow.... Forgive me, Ellis.」

He said so and left his spot in order to escape.

(Lutz)「..... I don't think onii-san would do such a thing... Ellis, can you accompany me to my room? I want to hear the story from you.」

(Ellis)「... Gusu<sup>5</sup>) <http://thejadednetwork.com/sfx/browse/gusu/> Yes.」  
While returning from the room, accompanied by Millie and Lutz, we spoke of the circumstance of what happened earlier.

(Lutz)「..... Did onii-san do anything bad?」

(Millie)「.....Alas, Yuki-san showed that sort of attitude.What to do...」

Lutz and Millie were hanging their heads.

(Ellis)「... I am sorry. It was my fault.」

(Lutz)「Ellis' feelings, I can also understand them but...」

(Millie)「... What matter isn't really what he did...But why he went away? Not arguing as if claiming it was his own bad?」

(Lutz)「..... Onii-san didn't want to involve us primarily. He himself didn't want to become the Dungeon Master. That's why he adopted this method and earnestly asked us. Well, it was also for the sake of the village, but when you disagree he will do nothing to stop it. Whatever the reason you have to leave, he will not be angry nor will he detain you.」

She remained silent for a while.

(Lutz)「For now Ellis, I want you to apologize to onii-san. Only that.」

(Ellis)「...Okay」

(Lutz)「Yet, if you give your excuses to onii-san, he will only accept them and nothing would happen.」

(Ellis)「Un」

(Lutz)「Therefore, I'll beat you hard. Please be prepared. Being top-heavy,6)Ahah Lutz you're jealous you deserve punishment for making onii-san bear such a look on his face!!」

That evening's dinner, I went to Yuki-san and apologized. As Lutz said, Yuki-san simply looked worried and said: Alright, do your best from now on.

Near me, Labiris gave me a dreadful glare. On the opposite side, Lutz stroke my cheek. Everyone was scared.

I decided.

I was going to follow Yuki-san until the end.

I would thus know his real shape and watch my fears with my own eyes.

When he'd talk about his primary purpose, I would try to think something to help him.

Well, tomorrow will be hard too. And today we were a little late.

# Chapter 44 - Doppelganger

Side: Aslin

Today again, I worked hard with onii-chan.  
For my reward, onii-chan gave me my favorite strawberry flavored ice cream for dinner.

(Aslin)「It's good huh～.Don't you say, Labiris-chan.」

(Labiris)「Yes」

(Philia)「It's delicious.Nii-sama!!」

I was surprised yesterday when Labiris-chan slapped Ellis onee-chan's cheek.  
But I was sure. She had her reason.

Because the Labiris-chan who was eating strawberry ice cream now looked really gentle.

Ellis onee-chan didn't understand either, but she apologized to us.

I thought that nothing bad happened, however.

But wasn't it good now since everyone became good friends?

I was delighted to eat dinner.

Yup, the dinner I worked hard to make!!

For the last few days, onii-chan brought me to the kitchen? And then, he taught me how to use the different tools and how to cook delicious food!!

But after this was something called arithmetic? Even though I persevered, it was hard, but I will try my hardest.

Onii-chan and everyone were pleased, right?

That's what Labiris-chan said!「A good woman can do a broad range of things.」

So I was going to try my best and become a lovely lady.

Becoming a real woman, I would receive onii-chan 「Pi」 and then 「Zugyun」 and 「Bakyun」 and I would bear his kid.

Since my body hadn't matured, for the time being, Yuki-san's sexual desire had yet to fawn over me. I was not worried because I would soon go Boin Boin<sup>1</sup>) For those interested in Japanese slang for breasts, like Labiris-chan!!

While I was thinking, Lulu talked in a loud voice that everyone could hear.

(lulu)「Everyone, will you hear me?」

Everyone's eyes gathered around Lulu, around her voice.

(Lulu)「I'd like... To return to my country, the Holy Ritea. I think that it's really rude coming from me toward everyone since I asked for your protection. But I realized something. I am still a citizen of Ritea. And I am a Holy Woman. Even if in the end, it means my death, I need to return to the Holy Country Ritea and correct my mistakes. Please, allow me to go out from here.」

I didn't understand difficult things, but if Lulu wanted to go back to Ritea? Then I think she should return.

Because she was not like us, she had a place to go back, and that's probably for the better.

But everyone was silent.

Millie had a very scary face. I wondered why?

(Aslin)「Hey, onii-chan. Is there a place where Lulu can return? If she can go home, isn't it better to go? Everyone is indeed worried.」

I asked onii-chan while pulling his sleeves.

(Yuki)「That's right. It's as you said, Aslin. How about it everyone?」

Onii-chan patted my head and asked to all of them.

(Aslin)「No～, if the person herself wants to go, I don't see any reason to stop her.」

(Labiris)「Yes, I'll agree if she answer why she wants to go.」

(Millie)「..... At most, it will use some luggage.」

(Ellis)「Lulu-sama's face is showing so much resolve. I don't feel like stopping her.」

(Lutz)「I won't stop you. What I need to know is your intention.」

(Kaya)「... Nothing particular」

Everyone2) I'm not 100% sure about who talked here was favorable toward Lulu's return.

However, her good friend, Herge onee-chan seemed a bit lonely.

(Herge)「Lulu-sama.But, then...」

(Oriell)「Herge-sama, it's useless. Lulu-sama is going to live for her beliefs.」

(Lulu)「Herge-sama. The probability that I will die is high. Nonetheless, I have to do it. It's something not anyone can be entrusted with. Holy woman, I think that I received this power purposely for this. It's all right. I won't die without fighting.」

(Aslin)「Eh!? Lulu-sama can't die!? It's not good!! Even though we could get along well!! Onii-chan, do help!?!」

Hearing the word 「Die」 twice from Lulu, my eyes became filled with tears.

(Yuki)「That's right. I can go to great lengths but, I would be bothered if you died. Can you picture this? But if you accept my proposal, I don't mind helping?」

(Aslin)「Onii-chan!! Don't mess with Lulu!!」

He should have given help normally, instead he acted maliciously.

(Labiris)「Aslin, it's ok. Yuki is talking to Lulu so that he can protect her.」

(Aslin)「Is that so?」

Replying to Labiris-chan, I examined onii-chan's face.

(Yuki)「..... Waah, Aslin's distress is an unusual sight. Lulu, If you succeed in restoring your position, you'll have to stop the invasion toward the Dungeon. And you will have to help with foreign diplomacy at the same time. More precisely, I want you to follow my plan, and I need you to remain safe, I will provide with an escort and a trump card.」

In the end, onii-chan craved in to help Lulu.

(Lulu)「... Yes, that's obvious. But that's if I'm rehabilitated. But who's going to escort me? And this situation, what will you do, will you be able to overturn it quickly?」

Full of disbeliefs, Lulu-sama watched onii-chan with round eyes.

(Yuki)「Well, that's surprising. My purpose isn't to only guard Lulu. There's various things along.」

Onii-chan made that face he sometimes did when he was about to play a prank.

I liked this face a lot.

When onii-chan made a prank, everyone was able to smile.

This face was like the one he did when he gave us ice cream for the first time.

(Yuki)「First of all, the escort then I want to gather pieces of information. For that job I selected Mauve, Raija and Curse.」

(Mauve)「Oh, leave it to me.」

(Raija)「Is it a long journey?」

(Curse)「Roger」

So onii-chan called out; and Mauve, Curse, and Raija answered. Those men were really strong. Lulu now everything was all right!!

(Yuki)「And now, about our trump card. Rather, I will introduce a fellow3) He used the word which can also mean a thing or a servant. So I'm not too keen of the meaning here. Maybe someone has a better understanding. who has many interesting cards up his sleeve to play.」

(Lulu)「Eh?」

Lulu-sama made a face. Accompanying her, I didn't know. Because what we had here were only human shaped beings.

Then, was it the strong and kind Goblins? Or the bouncing slimes? Well no, for certain!! It was the brave, the strong, the friendly cow, the blood minotaurs!!

(???)「Hello, pleased to meet you.」

The door of the room opened, and one man came in. At first look, he seemed rather younger than onii-chan. After all, his stature was smaller.

His hair was blond. But somehow, he had something similar to onii-chan.

..... What?

「Onii-chan...is it? That man」

Everyone displayed surprise all over their face but mine came through words instead.

Because, of course, that's my onii-chan. His moves and atmosphere are exactly like onii-chan!

(Yuki)「Whoa, hey Labiris. Has Aslin found out?」

In front of me, the second and new onii-chan patted my head while he asked. This way of stroking was definitely the one from onii-chan.!

(Lulu)「... What do you mean?」

It was Lulu-sama. She gave a glance to the older onii-chan. But the genuine older brother didn't move. Instead, his eyes were shut.

(Herge)「Ah, perhaps it is a doppelganger!?!」

The voice of Herge onee-chan increased as she remembered something.

(Yuki)「Correct」

Onii-chan clapped his hands as if to praise. I did the same as him, I clapped.

(Aslin)「Herge onee-chan, fantastic!!」

(Herge)「Yes.Yes! Your onee-chan is amazing!!」

Herge onee-chan embraced me, spinning me around. Recently, Herge onee-chan, onii-chan and me often slept together.

(Yuki)「Now, can you explain? First, what is a doppelganger? Mauve and friends, you guys are the most versed regarding the monsters. Can you share your knowledge?」

(Mauve)「Oh, ah. It really is you Yuki. I understand. The Doppelganger are monsters that live in some particular Dungeon or special area with a high degree of difficulty. Generally, those monsters impersonate your friends after they fall for a trap. Then they come to attack you by surprise. However, a doppelganger can mimic only the shape but not the memory. Usually, if you are a diver 4) as someone who dives into a Dungeon , you notice soon that something is wrong with your friend. What makes it possible? It seems that the abilities and the ways of moving are slightly on par with the original, but that's

it. The rank of a doppelganger according to our guild was... around 4?」

(Curse)「Yeah, there is no doubts.I fought with a doppelganger too. It's not a mighty monster.」

Uh, doppelgangers were demons good at imitating others.  
Huh? But onii-chan's doppelganger wasn't like that at all?

「Fumufumu5) murmur indicating approval, that's a good explanation you had there. Then, let us talk about the characteristics of this doppelganger I experimented. And my conclusion. When the level reaches high enough heights, it's possible for a perfect imitation and transformation. In other words, the memory can be replicated perfectly. However, I didn't dare to do it. Because when you replicate all the memory of an individual, most of the time, you end up betrayed. More precisely, he will forget that he was himself a demon, to begin with. That's why I was sure not to replicate my memories. Let's consider, what would happen if a false, higher leveled than Mauve appeared?」

(Mauve)「No, isn't it convenient?」

Mauve oji-san6)Oji means uncle said it was convenient.  
I also thought so. Because with someone stronger than me, wouldn't it be easier and fun?

(Yuki)「Mauve, what would happen if your level was so low that you weren't of any use to the fake?」

(Mauve)「Well, you'd get in the way... Getting rid of a hindrance, something like that.」

(Yuki)「Yes, with his will becoming genuine, the counterfeit will try to get rid of you. Well, even if you call him a fake, he's still the real deal who will outperform you. Even if you don't have a reason to part with each other, you definitely wouldn't have a reason to stay together. Have you ever heard of a story where someone lives in harmony with a doppelganger?」

(Mauve)「No, definitely not.」

(Yuki)「I suppose. In the case where you had an imitation. And in the case you're the real thing, Curse and Raija will have to choose between you. Even if you talk about an imitation, it's still a perfect one. And if you don't have enough

willpower, you can't endure this for a long time. In the case you are his friends, it's hard to swallow that he might be merely an imitation.」

(Mauve)「Oh」

(Yuki)「This is the reason why they aren't perfect copies. The memories are purposely not copied, and it's convenient to give a single order. Like Mauve said, to impersonate and eliminate the invaders. Or something on the line. With an order, I would be able to put one under my command even when the memories are perfectly imitated. However, he will become unstable and unreliable since he would have my memories.」

I don't quite understand. If I had an imitation, even if stronger, she would not be more suitable for onii-chan than me!! Would she try to push me aside? Uh~, it wouldn't bother me to become her friend~.

(Yuki)「And another feature of the doppelganger is that he isn't aware of his dependency toward his consciousness. Bluntly speaking, a direct control is possible. However, I can't move while I operate him. Herge's counterfeit was performed this way too.」

(Mauve)「Oh, I see. However, what about this one appearance? It's widely different from Yuki-san?」

(Yuki)「If you think simply, a doppelganger can mimic anything.v Basically, you can transform the parts as you like. Well, the exact same body could move without any discomfort. However, since my body is small I had a hard time raising my level.」

So when onii-chan'd moved this body, he couldn't move!!  
Huh? But even when you come down to it, another onii-chan came...

(Lulu)「Well, perhaps.Is that Yuki-san's trump card?」

Lulu-sama was surprised, her eyes round.

(Yuki)「No no, this body is one of my hand. And the back of this hand is the trump card. Because its effect will depend on your performance. If this body was to die, no problem would arise. They won't be able to tell that the Dungeon was involved. Mauve's party will only be tasked to collect basics information. When Lulu moves toward Ritea, I will be the escort.」

(Lulu)「Hey!? But, a demon in a holy place, you can compromise my position!!」

(Yuki)「Well, I've already understood this problem, I'm the one behind that fellow. We can do a little test, do you not have a technique to uncover a demon with holy magic?」

(Lulu)「I have one...」

(Yuki)「Try at once, if you discover anything I will protect you from the shadows. Otherwise, I will openly become your escort.」

(Lulu)「Can you enlight me? Sacred light which can reveal the devil's figure!! Light shower!!」

When Lulu advocated the magic, beautiful lights overflowed the room.

(Yuki)「Humm, there is no problem at all.」

(Lulu)「What!?!」

(Yuki)「Well, there are various reasons, but the main thing should be the level difference?」

(Lulu)「Level, how high on earth is yours!? I am a level 44 Arc bishop!? I'm still the third in power from Ritea!?!」

(Yuki)「Uh—,... Yeah.I'm sorry, I'm seemingly ahead.」

My brother answered, and brought down the doppelganger's status.

Name: Yuki

Tribe: Doppelganger

Status: Possessed Demon.

Sex: Male 7)no joke

Occupations: The ones which satisfy interest.

Age: 0 years

Lv.238

HP:6020

MP:23200

STR(Strength):2740

DEF(Defense):1400

INT(Wisdom):6920

Agi(Quickness): 3032

LUK(Luck):120

Skills

Well, an adequate amount.

(Aslin)「Oh, oh, onii-chan, you are unbelievable!! You look like a hero from the legends!!」

(Labiris)「Oh—, don't be surprised. Indeed, he's a Dungeon Master. Well, the people from earlier, there's no way they can win against Yuki the Dungeon Master.」

(Lulu)「Ahh, ahhh, by what means... such legendary level...」

(Yuki)「No, because I had some free time before joining with everyone, I've sent my doppelganger to try and capture the Dungeon. Of course, without including any of the traps. Also, without including the members I raised. I wanted to see how I could increase the levels and thus I did normal battles with goblins and lesser dragons with a high-powered weapon. The levels rose more smoothly than I thought. It felt as if I absorbed something from the defeated monsters. Therefore, if Labiris and the others were to experience this, their levels should rise rapidly?」

Eh, then me too, I could immediately raise my level to 100, wasn't that strong?

(Lulu)「..... What the hell do you think my life was...」

Somehow, Lulu-sama looked depressed. I was wondering why?
